Contextualizing Indigenous Knowledge in Africa and its Diaspora Ibigbolade Aderibigbe, Alloy Ihuah, Felisters Kripono, 2015-09-04 This volume proposes a wholesale adoption of African Indigenous Knowledge Systems AIKS as a paradigm for Africa's renewal and freedom from the whims of foreign interests These systems as argued here involve balancing short term thinking and immediate gratification with longer term planning for future generations of Africans and the continent's diaspora The book will be of interest to anyone concerned with development studies in Africa and its diaspora as it offers plausible solutions to Africa's chronic developmental problems that can only be provided from within Africa rather than through the intervention of external third parties As such it provides vital contributions to the ongoing search for viable answers to the challenges that Africa faces today **African Journal of Education Studies**, 2006 *Promoting Gender Equity in Selected Public Universities of Kenya* Jane Onsongo, 2011 The purpose of this study was to examine sustainable gender equity interventions in selected public universities The study used descriptive survey and case study research methods to carry out an in depth analysis of the gender equity interventions in selected public universities in Kenya The

sample consisted of four public universities that were selected because they had established gender centers institutes that were assumed to be coordinating gender equity intervention The study has the following objectives To establish the existing gender inequalities in the formal organisational structure of the selected universities To identify and assess sustainability of gender equity interventions in the selected public universities To analyse the national regional international and organisational culture and policy contexts that have influenced and supported the introduction of the identified gender equity interventions To investigate the attitudes of staff students and management towards the gender equity interventions and to recommend appropriate institutional strategies to address existing gender inequities

Multicampus University Systems Ishmael I. Munene,2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic

knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities **The OSSREA Newsletter** ,1997 **Complete Book of Colleges** Princeton Review

Law's Impunity Hin-Yan Liu, 2015-09-24 When faced with those who act with impunity we seek the protection of law We rely upon the legal system for justice from international human rights law that establishes common standards of protection to international criminal law that spearheads efforts to end impunity for the most heinous atrocities While legal processes are perceived to combat impunity and despite the ready availability of the law accountability often remains elusive What if the law itself enables impunity Law s Impunity asks this question in the context of the modern Private Military Company PMC examining the relationship between law and the concepts of responsibility and impunity This book proposes that ordinary legal processes do not neutralise but rather legalise impunity This radical idea is applied to the abysmal record of human rights violations perpetrated by the modern PMC and the shocking absence of accountability This book demonstrates how the law organises rather than overcomes impunity by detailing how the modern PMC exploits ordinary legal processes to systematically exclude itself from legal responsibility Thus Law s Impunity offers an alternative to conventional thinking about the law providing an innovative approach to assess and refine the rigour of legal processes in the ongoing quest to end impunity **The Development of Tertiary Education in the Eastern African Region** Isabella M.
