University Of Fort Hare Financial Aid:

Student Resistance to Apartheid at the University of Fort Hare Rico Devara Chapman, 2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government

African Personhood and Applied Ethics Motsamai Molefe, 2020-02-03 Recently the salient idea of personhood in the tradition of African philosophy has been objected to on various grounds Two such objections stand out the book deals with a lot more The first criticism is that the idea of personhood is patriarchal insofar as it elevates the status of men and marginalises women in society The second criticism observes that the idea of personhood is characterised by speciesism The essence of these concerns is that personhood fails to embody a robust moral political view African Personhood and Applied Ethics offers a philosophical explication of the ethics of personhood to give reasons why we should take it seriously as an African moral perspective that can contribute to global moral political issues The book points to the two facets that constitute the ethics of personhood an account of 1 moral perfection and 2 dignity It then draws on the under explored view of dignity qua the capacity for sympathy inherent in the moral idea of personhood to offer a unified account of selected themes in applied ethics specifically women animal and development

Poverty Alleviation Pathways for Achieving Sustainable Development Goals in Africa Thokozani Simelane, 2020-10-28 The inability to eradicate poverty among societies demands a synergistic approach This calls for the development of multi pronged pathways for transitioning towards sustainable development goals Many of these have been developed and tested across the world Some have proved to be effective in illuminating the underlying cause of the world s inability to eradicate poverty This is being driven by the fact that sustainable development as a global development concept represents a multidimensional phenomenon that includes many different indicators of human development This volume which derives from the papers presented at the seventh Africa Unity for Renaissance Conference that was held at Freedom Park Pretoria South Africa seeks to supplement existing pathways by highlighting Africa s approach to poverty alleviation which can possibly be attained through enhanced nutrition food security energy and gender equity Evidence presented reflects strengths weaknesses and opportunities on how Africa can transition towards sustainable development goals The information provided is useful to countries interested in assisting Africa to develop pathways for

achieving sustainable development goals within the scope of Agenda 2063 The book is a good reference for policy makers academics government authorities and students interested in research and developmental studies *Robert Mangaliso Sobukwe* Benjamin Pogrud,2019-10-16 A collection of thought provoking and moving essays on Robert Sobukwe commissioned and edited by his biographer and friend Benjamin Pogrud Sobukwe was a lecturer lawyer founding member and first president of the Pan Africanist Congress PAC and Robben Island prisoner **The Education of the South African Native** Charles Templeman Loram,1917 **This Week in South Africa** ,1995 *Rorke's Drift* Philippa Hobbs,Elizabeth Rankin,2003 The evangelical Lutheran Art and Craft Centre at Rorke s Drift as one of the very few places that offered training to black artists during the years of apartheid played a key role in South African art not only for those who studied there but the many others whom they trained or influenced in turn Drawing on a wide range of interviews with participants in the Rorke s Drift project not only from South Africa but also from Sweden the Netherlands Britain and the USA this book sets out to write the story of the beginnings of the Centre in the 1960s the founding and development of the Fine Art School in 1968 and the contribution of teachers and students until its closure in 1982 book jacket **Journal of Natal and Zulu History** ,2006 Handbook of Research on Social Justice and Equity in Education Keengwe, Jared,2022-05-06 There is growing pressure on teachers and other educators to understand and adopt the best ways to work with the various races cultures and languages that diverse learners represent in the ever increasing culturally diverse learning environments Establishing sound cross cultural pedagogy is also critical given that racial cultural and linguistic integration has the potential to increase academic success for all learners To that end there is also a need for educators to prepare graduates who will better meet the needs of culturally diverse learners as well as support their students to become successful global citizens The Handbook of Research on Social Justice and Equity in Education highlights cross cultural perspectives challenges and opportunities pertaining to promoting cultural competence equity and social justice in education It also explores multiple concepts of building a bridge from a monocultural pedagogical framework to cross cultural knowledge Covering topics such as diversity education and global citizenship this major reference work is ideal for academicians researchers practitioners policymakers instructors and students **The End of an Era? Robert Mugabe and a Conflicting Legacy** Munyaradzi, Mawere,Marongwe, Ngonidzashe,2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe s legacy can broadly be represented first by those

who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies **United States Private Investment in South Africa** United States. Congress. House. Committee on International Relations. Subcommittee on Africa, 1978 Investigating Corruption and White-collar Crime in South African Higher Education Bethuel Sibongiseni Ngcamu, 2025-10-16 Using an interpretivist approach this qualitative volume interrogates instances of corruption and white collar crime prevalent in South African higher education institutions and suggests pathways for the proactive detection and prevention of corrupt practices Contextualizing the author's practical experiences gained in the higher education sector over the past two decades this book employs an ethnographical method to explore the complexity of university systems structures and functions that make South Africa's formerly disadvantaged universities more susceptible to corruption In the midst of highly contested divisive and highly politicized ways of reporting corruption in the media chapters provide critical analyses guided by scientific approaches robust data sets and qualitative face to face interviews to underpin the reliability of proposed policy amendments intended to detect and prevent corruption and white collar crime as well as the suggested closure of loop holes that make the sector vulnerable to and known for a high level of criminality Making a substantial contribution to broader academic debate around corruption and university management internationally this book will be of interest to researchers and postgraduate students in the field of higher education higher education management and administration and education policy and politics Policy makers in both the Global South and North are also likely to benefit from this book Titanium Dioxide Dongfang Yang, 2018-06-27 Titanium dioxide is currently being used in many industrial products It provides unique photocatalytic properties for water splitting and purification bacterial inactivation and organics degradation It has also been widely used as the photoanode for dye sensitized solar cells and coatings for self cleaning surfaces biomedical implants and nanomedicine This book covers various aspects of titanium dioxide nanomaterials including their unique one dimensional two dimensional mesoporous and hierarchical nanostructures and their synthetic methods such as sol gel hydrothermal anodic oxidation and electrophoretic deposition as well as its key applications in environmental and energy sectors Through these 24 chapters written by experts from the international scientific community

readers will have access to a comprehensive overview of the recent research and development findings on the titanium dioxide nanomaterials

Black Student Politics, Higher Education and Apartheid Saleem Badat, 1999 *Black Student Politics Higher Education and Apartheid* examines two black national student political organisations the South African National Students Congress SANSCO and the South African Students Organisation SASO popularly associated with Black Consciousness It analyses the ideologies politics and organisation of SASO and SANSCO and their intellectual political and social determinants It also analyses their role in the educational political and social spheres and the factors that shaped their activities Finally it assesses their contributions to the popular struggle against apartheid education as well as against race class and gender oppression *Papers R.P.*, 1967

Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions

Education, Race, and Social Change in South Africa John A. Marcum, 2023-04-28 *Education Race and Social Change in South Africa* examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa's leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

Partiality and Impartiality in African Philosophy M. Molefe, 2021-11-10 *Partiality and Impartiality in African Philosophy* fills the lacuna in

African philosophy literature on the inherent tension between requirements of partiality favoritism and impartiality equality Motsamai Molefe deploys two strategies to philosophically resolve the tension between partiality and impartiality The first strategy involves applying the moral theories of Kwasi Wiredu Thaddeus Metz and Kwame Gyekye to the problem Finding their views useful in some ways and seriously limited in others Molefe turns to the second strategy in which he invokes the salient normative concept of personhood in African cultures Molefe argues that the concept of personhood adjoins theories of human dignity and moral perfection virtue The major insight that emerges is a robust ethical theory qua personhood that accommodates both partiality and impartiality He grounds requirements of impartiality on human dignity which operates largely as a macro ethical concept that normatively informs the character of our social institutions politics Politics is characterized by fairness equality and impartiality Partiality the agent and other centred forms of it is directly connected with the agent s chief moral duty to achieve her own virtue moral perfection which operates as a micro ethical concept These two kinds of moral partialism self favoritism and close ties such as family are justified by appeal to the project s view instead of the individuals and relationships view typically invoked to justify moral partiality in the literature *Vice-chancellor on a Tightrope* Stuart Saunders,2000 **Black Student Politics** Saleem Badat,2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company
