Integrative Learning in US Undergraduate Public Health Education: Effective High-Impact Practices Andrew Harver,Katie Darby Hein,Terrel Lee Rhodes,2020-01-28 This current Research Topic does not derive directly from Boyer s Model of Scholarship but nonetheless represents a well timed exploration and example of where higher education has progressed in bringing the innovative integrative conceptualization of higher education scholarship and practice laid out by Boyer to realization through the growing arena of undergraduate public health programs At the same time the authors included here were invited to specifically address a second arena of scholarly practice associated with additional elements of Boyer s legacy effective High Impact Practices HIPs practices that engage students faculty and often broader communities in integrative learning that connect academic and extra academic learning environments Undergraduate public health programs are perfectly positioned to provide a framework for integrated learning through High Impact Practices Such practices encompass not only the essential learning outcomes that employers continue to demand critical thinking working with diverse others written and oral communications ethics analysis etc but also a curriculum that is scaffolded and replete with opportunities to practice and enhance performance and application of knowledge and abilities to important personal

social and global challenges and needs **Making a Positive Impact in Rural Places** R. Martin Reardon, Jack Leonard, 2018-03-01 Following on from the preceding volume in this series that focused on innovation and implementation in the context of school university community collaborations in rural places this volume explores the positive impact of such collaborations in rural places focusing specifically on the change agency of such collaborations The relentless demand of urban places in general for the food and resources e g mineral and energy resources originating in rural places tends to overshadow the impact of the inevitable changes wrought by increasing efficiency in the supply chain Youth brought up in rural places tend to gravitate to urban places for higher education and employment social interaction and cultural affordances and only some of them return to enrich their places of origin On one hand the outcome of the arguable predominance of more populated areas in the national consciousness has been described as urban normativity a sense that what happens in urban areas is the norm By implication rural areas strive to approach the norm On the other hand a mythology of rural places as repositories of traditional values while flattering fails to take into account the inherent complexities of the rural context The chapters in this volume are grouped into four parts the first three of which explore in turn collaborations that target instructional leadership increase opportunities for underserved people and target wicked problems The fourth part consists of four chapters that showcase international perspectives on school university community collaborations between countries Australia and the United States within China within Africa and within Australia The overwhelming sense of the chapters in this volume is that the most compelling evidence of impact of school university community collaborations in rural places emanates from collaborations brokered by schools communities to which universities bring pertinent resources **Handbook of Teaching and Learning in Tourism** Pierre Benckendorff, Anita Zehrer, 2017-01-27 This comprehensive Handbook provides an international perspective on contemporary issues and future directions in teaching and learning in tourism Key topics include assurance of learning development of skills learning in the field work integrated learning sustainability and critical studies internationalisation technology enabled learning links between teaching and research and graduate student supervision Within these topics attention is devoted to the discussion of curriculum pedagogy assessment students educators and trends and issues The Handbook provides a valuable resource for understanding teaching and learning theory and practice in tourism *Princeton Review the Best 382 Colleges* Robert Franek, Kristen O'Toole, David Soto, Princeton Review (Firm), 2017 A survey of life on the nation's campuses offers detailed profiles of the best colleges and rankings of colleges in sixty two different categories along with a wealth of information and applications tips **Crossing the Bridge of the Digital Divide** Anthony H. Normore, Antonia Issa Lahera, 2018-09-01 Crossing the Bridge of the Digital Divide A Walk with Global Leaders explores the combined effect of the rapid growth of information as an increasingly fragmented information base a large component of which is available only to people with money and or acceptable institutional affiliations In the recent past the outcome of these challenges has been characterized

as the digital divide between the information haves and have nots along racial and socio economic lines that seem to widen as time passes To address the issues of digital equity and digital inequality in an effort to bridge the digital divide educational scholars researchers and practitioners are in positions to ensure equitable opportunities are made available for people of all ages races ability sexual orientation and ethnicity in support of social justice for bridging the digital divide The digital divide addresses issues concerning equal opportunity equity and access that have an effect on the development of marginalized and otherwise disenfranchised populations within and across systems nationally and internationally The contributing authors representing Unites States Canada South Africa New Zealand and the UK posit that education institutions can serve as the bridge to close the digital divide for students who do not have access to information technology in their homes At a time when more computers are made available in schools than ever before the digital divide continues to widen and fewer people in the lowest SES groups are given the opportunity to join the world of computer technology and the internet As a result the influence of leadership activity on institutional racism gender discrimination inequality of opportunity inequity of educational processes digital exclusion and justice have gained currency and attention The contributing national and international authors examine the digital divide in terms of social justice leadership equity and access It is within this context that the authors offer discussions from a lens of their choice i e conceptual review of literature epistemological etc By adopting an educational approach to bridging the digital divide researchers and practitioners can connect and extend long established lines of conceptual and empirical inquiry aimed at improving organizational practices and thereby gain insights that might be otherwise overlooked or assumed This holds great promise for generating refining and testing theories of leadership for equity and access and helps strengthen already vibrant lines of inquiry on social justice

J. Roswell Flower David K. Ringer,2016-02-24 J Roswell Flower was adrift in his late teens When he surrendered himself to Jesus Christ at age nineteen his heart found a home in the Pentecostal Movement Soon his mind was exhilarated by studying the Bible church history and theology Slowly he began to realize he was called to full time ministry Attracted by the announcement of a convention to encourage greater cooperation among Pentecostal groups he went to what proved to be the founding meeting of the General Council of the Assemblies of God Flower was elected as secretary of the new organization He loved the Council s guiding principles of unity voluntary cooperation and fellowship which at the same time protected the autonomy of local congregations They guided his ministry for the next forty six years as a local pastor as a district superintendent and as general secretary Flower never wavered in his commitment to the classical Pentecostal doctrine of the baptism in the Holy Spirit He spent much time in the last two decades of his public ministry teaching the principles and the denomination s position on Spirit baptism to the new generations of Assemblies of God youth both in the United States and abroad

Handbook of Research on Teachers of Color and Indigenous Teachers Conra D. Gist,Travis J. Bristol,2022-10-15 Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America with

Black Indigenous and People of Color making up roughly 37% of the adult population and 50% of children but just 19% of the teaching force Yet research over decades has indicated their positive impact on student learning and social and emotional development particularly for Students of Color and Indigenous Students A first of its kind the Handbook of Research on Teachers of Color and Indigenous Teachers addresses key issues and obstacles to ethnoracial diversity across the life course of teachers careers such as recruitment and retention professional development and the role of minority serving institutions Including chapters from leading researchers and policy makers the Handbook is designed to be an important resource to help bridge the gap between scholars practitioners and policy makers In doing so this research will serve as a launching pad for discussion and change at this critical moment in our country s history The volume s goal is to drive conversations around the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence based decisions for supporting an ethnoracially diverse educator workforce now and in the future
