Mediterranean route from the Horn of Africa through Libya to Europe The authors warn against an over optimistic view of innovation as a solution and highlight the relationship between technology and the crimes committed against vulnerable people in search of protection In this volume the third in a four part series Connected and Mobile Migration and Human Trafficking in Africa relevant new theories are proposed as tools to understand the dynamics that appear in mobile Africa Most importantly the editors identify critical ethical issues in relation to both technology and human trafficking and the nexus between them helping explore the dimensions of new responsibilities that need to be defined The chapters in this book represent a collection of well documented empirical investigations by a young and diverse group of researchers addressing critical issues in relation to innovation and the perils of our time

Feeling lives: An intersectional exploration of past experiences and present living Lindsay Clowes,LJ Theo,Nadia Sanger,Landa Mabenge,Sisa Ngabaza,2023-11-15 We each make sense of the world through our embodied feeling lives We do it through the social groupings contexts and processes which history rather than biology presents and assigns to us In this collection we aim to illustrate how these embodied feelings and emotions underpin contemporary theorising by sharing reflective autobiographical writing by individuals from a wide range of backgrounds and contexts This somewhat unruly collection unsettles conventional academic writing precisely because authors have grounded themselves in the tangible and the personal rather than in abstract theory We hope that readers might see aspects of their own lives in some of these stories develop better understandings of lives that are experienced very differently and start or continue to theorise their own lives

Water Security Across the Gender Divide Christiane Fröhlich,Giovanna Gioli,Roger Cremades,Henri Myrntinen,2017-10-05 This book examines water security as a prime example of how the economic socio cultural and political normative systems that regulate access to water reflect the evolving and gendered power relations between different societal groups Access to water is characterized by inequalities it depends not only on natural water availability but also on the respective socio political context It is regulated by gender differentiated roles and responsibilities towards the resource which are strongly influenced by among others tradition religion customary law geographical availability as well as the historical and socio political context While gender has been recognized as a key intervening variable in achieving equitable water access most studies fail to acknowledge the deep interrelations between social structures and patterns of water use Proof of these shortcomings is the enduring lack of data on water accessibility availability and utilization that sufficiently acknowledges the relational nature of gender and other categories of power and difference like class and socioeconomic status as well as their comprehensive analysis This book addresses this major research gap

[Race Talk in the South African Media](#) Gawie Botma,2020-01-06 This book makes a very significant timely and relevant contribution to a very topical subject of immense local as well as global interest Through tracing the evolution of media discourse about race and racism which the author prefers to call race talk the writer prised open a window to a panoramic variegated and yet nuanced perspective of the perennial South African race question etched

across the vistas of time and memory since Jan Van Riebeeck set up the first European settlement as a refreshment station for the Dutch East India Company at the Cape of Good Hope in 1652 up to the time of writing this book It lends a fresh lens through which to re read South African society not only to a studious scholar of media history but also to anybody interested in the general history of South Africa Dr Zvenyika Mugari WITS This book is based on meticulous archival searching presented in a new fresh and highly engaging way This is a book based on evidentiary led scholarly principles that has lucidity as a goal Unlike so many scholarly works which are turgid and very difficult to read because they are written in restricted codes meant only for other academics this manuscript is wonderfully lucid accessible and a pleasure to read The prime readership will be academics but its lucidity makes it appealing beyond a purely academic readership hopefully reaching media professionals and students also and influencing debates on race policy This is how academic books in fact should be written Prof Keyan Tomaselli University of Johannesburg The author has embarked on a very difficult and complex task of understanding the race construct in the South African media context This is a highly contested and contentious space in South Africa and it is particularly arduous for a white middle class middle aged Afrikaans male to navigate this space The author has however eloquently managed to pilot this fine line of controversy He offers a balanced view of the belligerent debate without treading insensitively on the toes of protagonists and at the same time challenges prevailing views Andr Rose National Cancer Institute

Language Contact. Volume 2 Jeroen Darquennes, Joseph C. Salmons, Wim Vandenbussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges

Internal migration and development planning in South Africa (Dr) Ilse Eigelaar-Meets, 2025-02-19 This scholarly book aims to illustrate the importance of incorporating internal migration data into development planning initiatives and processes to gain insight into both short and long term social changes This publication draws on census data pertaining to internal migration flows in the Northern Cape and Western Cape provinces of South Africa The author analyses compares and presents data across three post apartheid periods 1996 2001 2001 2006 and 2006 2011 to illustrate how current forces drive and direct migration flows and how this impacts the social dynamics within the two provinces This book highlights three significant shifts when comparing the two provinces pre and post 1994 internal migration trends First it examines the change in the political context framing mobility Second it explores the change in the types of internal migration flows sustaining urbanisation Third and lastly it analyses the changing profile of mobile migrants

in the Northern Cape and Western Cape Internal migration and development planning in South Africa makes a compelling case for a strategic and coordinated approach by governments by demonstrating the influence of political and economic forces on internal migration flows and their impact on community social dynamics Such an approach is essential to address the increasing developmental constraints and challenges posed by internal migration in post apartheid South Africa

Juki,2016-06-02 Centering Humanism in STEM Education Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM
