Educational Leadership in Becoming Nuraan Davids, Yusef Waghid, 2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to

educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education *Routledge Handbook of Critical*

Mawere, 2018-09-17 It is common knowledge that development without security is like a runaway horse Yet development in Africa has been plagued by insecurities since the extractive periods of slave trade and colonialism In spite of political independence and the euphoria of sovereignty as states Africa has failed to address insecurity which continues to loom large and to threaten aspirations towards truly inclusive and sustainable development A consequence has been Africa's development naivety vis vis the monopolisation of development by the predatory elite actors of the global North and their local facilitators To salvage the continent from such predation and the insecurities engendered requires novel and innovative imagination and praxis This book draws from both the haunted landscapes and bitter memories of past exploitations and from the feeding of the insatiable North with African resources and humanity It brings together essays by a concerned generation of scholars driven by the urgent need for radical decolonisation of African development and its legacies of insecurities It is handy to students and practitioners in economics policy studies political science development studies global and African studies **Youth Exclusion and Empowerment in the Contemporary Global Order** Oláyínká Àkànlé, 2022-08-10 The first volume of Youth Exclusion and Empowerment in the Contemporary Global Order focuses particularly on contexts of

Democracy and Education in Namibia and Beyond

Amukugo, Elizabeth M., 2017-07-19 The Namibian constitution makes full provision for education as a fundamental human right and freedom Three years into independence as part of the government's educational policy the Education for All Policy was launched as a stepping stone to free quality education However inequities have become widely pronounced within the Namibian educational system Democracy and Education in Namibia and beyond debates the education democracy nexus in Namibia and the southern African context It defines and explores the meaning of democracy and related concepts It also looks at what democracy means in the context of human rights and access to education The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in Namibia The authors in the collection have drawn material from their own teaching and research experience across the fields of education and social science in Namibia and beyond and present their findings in a pedagogical framework suitable as a challenging text for tertiary students At a time when education is in crisis especially in South Africa where strident calls for free tertiary education and Africanisation of the curriculum are spreading like wildfire this book gives scholarly insight into the history and social conditions that gave rise to our current predicament

Effects of Globalization on Education Systems and Development

Macleans A. Geo-JaJa, Suzanne Majhanovich, 2016-11-04 With its comprehensive coverage and quality this provocative book is concerned with the future of developing countries in Africa Asia and Latin America By providing in depth analysis of the economic social and educational challenges of emerging states it offers an alternative roadmap to development The authors in this collection substantiate the notion that emerging states often do not participate in policy choices related to their development when faced with universalization of curriculum and internationalization of education The authors make explicit the direct and indirect effects of globalization on educational systems social equity and the path of development In demonstrating the impact of neoliberalism or market based reforms on the developing world the authors show that education without human rights is vulnerable to negative forces of globalization and internationalization The message of the book is quite pessimistic about possibilities to widen the economic space or increase freedom unless development cooperation is made possible by Helping People Help Themselves as suggested by David Ellerman The authors note that in the past the issue of emerging states as an appendage to the world economy was a fundamental question related to colonialism but now has become a question of imperialism which needs to be examined when considering the current patterns of development

An Ambulance on Safari Melissa Diane Armstrong, 2020-10-22 During the apartheid era thousands of South African political activists militants and refugees fled arrest by crossing into neighbouring southern African countries Although they had escaped political oppression many required medical attention during their period of exile

An Ambulance on Safari describes the efforts of the African National Congress ANC to deliver emergency healthcare to South African exiles and in the same stroke to establish political legitimacy and foster anti apartheid sentiment on an international stage Banned in South Africa from 1960 to 1990 the ANC continued its operations underground in anticipation of eventual political victory styling itself as a government in waiting In 1977 it created its own Health Department which it presented as an alternative medical service and the nucleus of a post apartheid healthcare system By publicizing its own democratic policies as well as the racist practices of healthcare delivery in South Africa the Health Department won international attention for its cause and provoked widespread condemnation of the apartheid state While the global campaign was unfolding successfully the department s provision of healthcare on the ground was intermittent as patients confronted a fledgling medical system experiencing various growing pains Still the legacy of the department would be long as many medical professionals who joined the post apartheid Department of Health in South Africa had been trained in exile during the liberation struggle With careful attention to both the international publicity campaign and on the ground medical efforts An Ambulance on Safari reveals the intricate and significant political role of the ANC s Health Department and its influence on the anti apartheid movement

Ghosts of Archive Verne Harris, 2020-12-21 *Ghosts of Archive* draws on the discourses of deconstruction intersectionality and archetypal psychology to mount an argument that archive is fundamentally and structurally spectral and that the work of archive is justice Drawing on more than 20 years of the author's research on deconstruction and archive the book posits archive as an essential resource for social justice activism and as a source or location of soul for individuals and communities Through explorations of what Jacques Derrida termed hauntology Harris invites a listening to the call for justice in conceptual spaces that are non disciplinary He argues that archive is both constructed in relation to and beset by ghosts ghosts of the living of the dead and of those not yet born and that attention should be paid to them Establishing a unique nexus between a deconstructive intersectionality and traditions of memory for justice in struggles against oppression from South Africa and elsewhere the book makes a case for a deconstructive praxis in today's archive Offering new ideas about spectrality banditry and archival activism *Ghosts of Archive* should appeal to those working in the disciplines of archival science information studies and psychology It should also be essential reading for those with an interest in social justice issues transitional justice history philosophy memory studies and postcolonial studies **Africa and the Sustainable**
