Reflections on the 2019 South African General Elections Joleen Steyn Kotze, Narnia Bohler-Muller, 2020-12-18

Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country's electoral democracy. The volume engages questions on land election campaigns, voter turnout, voter apathy, and how opposition parties will be forced to co-exist in the context of declining electoral dominance. The ANC, once comfortably held, is an important reflection on the lessons of the 2019 South African General Elections. The contributors ask: Quo Vadis South Africa? The 2019 General Elections marked a watershed in South Africa's political landscape. The ANC, under the banner of a narrative of regeneration and getting back on the moral path, dipped below the 60% mark for the first time in South Africa's democratic history. This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature, the erosion of its integrity, and disillusionment with its performance as a governing party. Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC. Caught in their own factional battles and in the midst of corruption scandals, opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter. Considering the future of South Africa's electoral democracy at 25 years of democracy, Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies, South Africa Governance and Elections. The chapters in this book were originally published as a special issue of *Politikon: South African Journal of Political Studies*.

Dominance and Decline Susan Booysen, 2015-10-01

As Jacob Zuma moves into the twilight years of his presidencies of both the African National Congress (ANC) and of South Africa, this book takes stock of the Zuma-led administration and its impact on the ANC. *Dominance and Decline: The ANC in the Time of Zuma* combines hard-hitting arguments with astute analysis. Susan Booysen shows how the ANC has become centred on the personage of Zuma and that its defence of his extremely flawed leadership undermines the party's capacity to govern competently and to protect its long-term future. Following on from her first book, *The African National Congress and the Regeneration of Power* (2011), Booysen delves deeper into the four faces of power that characterise the ANC. Her principal argument is that the state is failing as the president's interests increasingly supersede those of party and state. Organisationally, the ANC has become a hegemon riven by factions as the internal blocs battle for core positions of power and control. Meanwhile, the Zuma-controlled ANC has witnessed the implosion of the tripartite alliance and decimation of its youth, women's, and veterans' leagues. Electorally, the leading party has been ceding ground to increasingly assertive opposition parties. And on the policy front, it is faltering through poor implementation and a regurgitation of old ideas. As Zuma's replacements start competing and succession politics take shape, Booysen considers whether the ANC will recover from the damage wrought under Zuma's reign and attain its former glory. Ultimately, she

believes that while the damage is irrevocable the electorate may still reward the ANC for transcending the Zuma years This is a must have reference book on the development of the modern ANC With rigour and incisiveness Booysen offers scholars and researchers a coherent framework for considering future patterns in the ANC and its hold on political power **Global Encyclopedia of Public Administration, Public Policy, and Governance** Ali Farazmand,2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manger and students worldwide this work will serve as the most viable global reference source for those looking for an introduction and advance knowledge to the field Reflections of South African Student Leaders: 1994 to 2017 Ntokozo Bhengu,Denyse Webbstock,2020-05-13 Reflections of South African Student Leaders 1994 2017 brings together the reflections of twelve former SRC leaders from across the landscape of South African universities Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership The interviewees are from different backgrounds and of diverse political persuasions The book is important for current and future leaders of higher education institutions as it provides insights into the thinking aspirations desires fears and modus operandi of student leaders Such insight can contribute to developing and implementing appropriate strategies
