Lifestyle, Biological Risk Factors for Non-Communicable Diseases in the Midst of Social Inequalities and COVID-19 Kotsedi Monyeki, Andre Pascal Kengne, Benedicta Ngwenchi Nkeh-Chungag, Han C. G. Kemper, 2023-07-31 *The Origin and Growth of Geography as a discipline at South Africa Universities* Gustav Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future **Annual Report ...** South Africa. Department of Higher Education and Training, 2016 *Koedoe* , 2005 **Social Work in Social Change** Nicci Earle, 2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC s research programme on Education Science Skills Development It follows a pilot study on medical doctors published in 2006 entitled *Doctors in a Divided Society* The profession and education of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu and professional labour market of social workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective intervention **Doctoral Education in South Africa** Nico Cloete, Johann Mouton, 2015-12-08 Worldwide in Africa and in South Africa the importance of the doctorate has increased disproportionately in relation to its share of the overall graduate output over the past decade This heightened attention has not only been concerned with the traditional role of the PhD namely the provision of future academics rather it has focused on the increasingly important role that higher education and particularly high level skills is perceived to play in national development and the knowledge economy This book is unique in the area of research into doctoral studies because it draws on a large number of studies conducted by the Centre of Higher Education Trust CHET and the Centre for Research on Evaluation Science and Technology CREST as well as on studies from the rest of Africa and the world In addition to the historical studies new quantitative and qualitative research was undertaken to produce the evidence base for the analyses presented in the book The findings presented in *Doctoral Education in South Africa* pose anew at least six tough policy

questions that the country has struggled with since 1994 and continues to struggle with if it wishes to gear up the system to meet the target of 5 000 new doctorates a year by 2030 Discourses framed around the single imperatives of growth efficiency transformation or quality will not however generate the kind of policy discourses required to resolve these tough policy questions effectively What is needed is a change in approach that accommodates multiple imperatives and allows for these to be addressed simultaneously

Improving Diets and Nutrition Brian Thompson, Leslie Amoroso, 2014-04-28 Nutrition sensitive food based approaches towards hunger and malnutrition are effective sustainable and long term solutions This book discusses the policy strategic methodological technical and programmatic issues associated with such approaches proposes best practices for the design targeting implementation and evaluation of specific nutrition sensitive food based interventions and for improved methodologies for evaluating their efficacy and cost effectiveness and provides practical lessons for advancing nutrition sensitive food based approaches for improving nutrition at policy and programme level

Consumer Perceptions and Food Diana Bogueva, 2024-10-23 This book is a timely overview of the various aspects of consumer perception related to food This book explores consumer perceptions that are vital to marketers and often underlie the success or failure of products in the marketplace Perception is the process of selecting organizing and interpreting sensations into a meaningful whole and this book highlights how human perceptions are unique highly subjective and easily distorted These perceptions are influenced by our senses sight hearing taste smell and touch as well as our beliefs emotions opinions and experiences This book states that this is related to food and perceptions are also guided by beliefs thoughts emotions feelings and opinions about or preferences expectations and knowledge of and the sensory experience the fear and the relationships built between the consumers and the food over time This book aims to further the understanding of the fundamental mechanisms which determine individual responses to existing and emerging food issues This book provides insights into consumer behaviour e g consumer decision making promoting behaviour change factors influencing consumers food and meal choices confidence in the safety of food perception of health related messages and food laws and regulations sustainable and responsible consumer behaviour e g food waste acceptability of new food alternatives innovations and technologies integrating consumer insight and communication challenges in cross functional communications in innovation processes Consumer Perceptions and Food delves into how these perceptions shape consumer behavior from decision making and behavior change to meal choices and confidence in food safety It explores the impact of health related messages food laws and regulations and examines the acceptability of new food alternatives and technologies The book also addresses the importance of sustainable and responsible consumer behavior including food waste and ethical consumption Through a rich array of insights this book provides a deep understanding of the fundamental mechanisms that drive individual responses to food issues It emphasizes the importance of mindful eating making conscious food choices that benefit our health the environment and the planet This involves considering the origins of our food its production methods and the broader impacts

of our choices on public health and ecosystems This book is a call to action for consumers to rethink their relationship with food fostering deeper connections and appreciation for sustainable practices and ethical consumption It is a crucial step in the ongoing journey of shaping the future of food guided by informed and mindful consumers *Food and Nutrition Systems in Urban India* Neetu Choudhary,2023-12-18 This book explores identity mediated dynamics of food and nutrition entitlement in urban India analysing concerns around equity access to food and public health The issues of disentanglement and identity dynamics when it comes to nutrition and health are more intricate in the urban context due to a greater population and cultural diversity While in the global north urban food planning is increasingly dependent on local government in developing countries urban nutrition is yet to be considered a serious policy issue This book with a disaggregated analysis for urban India and an in depth case study of Mumbai examines how malnutrition in India is becoming an urban challenge It discusses how far caste religion and migratory identities serve as a source of deprivation and analyses the role of local governance particularly municipal governance and urban planning in facilitating the disentanglement It also offers suggestions for the global south to reverse the stark inequality in its urban centres and address nutrition challenges by developing their own sustainable and resilient food systems This book is an essential read for scholars and researchers of public health nutrition urban sociology urban planning development studies political sociology public policy and political studies **The Role of Science in Environmental Policy Making** United States. Congress. Senate. Committee on Environment and Public Works,2008 **Sustainable Agriculture and Food Security** Walter Leal Filho,Marina Kovaleva,Elena Popkova,2022-07-28 This book describes initiatives and concrete examples on sustainable food production worldwide In the current world scenario where nations all over the world are struggling to accomplish the United Nations Sustainable Development Goals and to ensure sustainable patterns for all this book provides a contribution towards a more comprehensive and interdisciplinary understanding of the cross cutting issues related to Sustainable Agriculture and Food Security This interdisciplinary book supports the efforts to engage a commitment from all fields of science to work together to provide knowledge that could help to address SDG2 No hunger and lead to the promotion of quality of life by means of a more sustainable food production and improved food security This book is expected to fill the gap of publications in this field It gives a special emphasis to a state of the art descriptions of approaches methods initiatives and projects from universities stakeholders organizations and civil society across the world regarding cross cutting issues in sustainable food production It includes examples of policies and practices case studies examples of projects institutional policies innovative methods and tools and research outputs which highlight the interdependence between sustainable agriculture and food security issues It is expected that the Sustainable Agriculture and Food Security will make the many benefits of sustainable food production clearer and inter alia lead to an increase in the emphasis provided to this central theme *Principles of Medicine in Africa* David Mabey,Geoffrey Gill,Eldryd Parry,Martin W. Weber,Christopher J. M. Whitty,2013-01-17 Principles of Medicine in

Africa combines classical clinical medicine with a rich understanding of the major environmental and cultural influences on health and disease providing comprehensive guidance for anyone intending to practise medicine in Africa Disease is presented in the context of family and culture and the effects of inequality and problems of limited resources are addressed The authors have a wealth of experience in front line healthcare and provide practical evidence based management guidelines for all the common and less common conditions likely to be encountered This fourth edition has been thoroughly updated to incorporate the latest research findings and management guidelines It includes an expanded section on maternal and child health but careful editing has generated a slimmer volume whilst retaining all of the essential content This is the one essential text for medical students and healthcare professionals wanting a complete and up to date reference book on medicine in Africa
