Decolonising Geography? Disciplinary Histories and the End of the British Empire in Africa, 1948-1998 Ruth Craggs, Hannah Neate, 2023-10-16

DECOLONISING GEOGRAPHY This book presents an extraordinarily sensitive account of geography's histories in five African countries subjected to British colonial rule. Craggs and Neate draw together political and imaginative processes of decolonisation through an innovative biographical approach that humanizes and enlivens the story of our academic discipline. It will be an invaluable resource for those seeking a deeper understanding of decolonisation, its recent trajectories and far-reaching implications on the African continent. Shari Daya Affiliate Associate Professor in Environmental and Geographical Science, University of Cape Town. By placing the experiences, ideas and practices of African geographers in the center of their analyses, Craggs and Neate provide an unprecedented account of historical and contemporary decolonizing struggles within Geography and the academy. This book should be required reading for all those looking to decolonize the discipline and dislodge it from its Global North histories, institutions and ideologies. Mona Domosh, Professor of Geography, The Joan P and Edward J Foley Jr 1933 Professor, Dartmouth College. This meticulous work explores how colonialism, decolonization and postcolonialism shaped African geography and geographers. It sheds light on efforts to Africanize the discipline, a process which I was both witness to and a participant in. Stanley Okafor, Professor of Geography, Retired, University of Ibadan. How did a generation of academic geographers engage with constitutional decolonisation during the end of the British empire in Africa? In *Decolonising Geography: Disciplinary Histories and the End of the British Empire in Africa, 1948-1998*, Ruth Craggs and Hannah Neate explore how the teaching, research, administration and activism of geographers in Africa shaped the discipline and the post-colonial geopolitics of the continent. The authors follow the professional lives of individual geographers to provide fresh insights into decolonisation in the former British Empire in Africa, drawing from extensive archival research and more than 40 oral history interviews with geographers in Ghana, Nigeria, South Africa, Tanzania and the UK. *Decolonising Geography* is a must-read for any reader in the UK and Africa with an interest in the relationships between geography and decolonisation.

Taking Comedy Seriously Jennalee Donian, 2018-12-31 This book explores stand-up comedy as a relevant sociological phenomenon from a contemporary perspective as both a symptom of neoliberal capitalism and the locus specificus of socio-political critique in the era of Empire. It draws a feasible connection between the conspicuous rise in the art form's popularity

over the past number of years and the dehumanizing and fracturing processes of the current dispensation that are increasingly becoming the defining experience of life in the contemporary era and to which understood in terms of the traditional humor theory of relief of which Sigmund Freud is key comedy serves as an obvious palliative More than this Taking Comedy Seriously Stand Up s Dissident Potential in Mass Culture in the Context of the Neoliberal Domain of Empire questions the possibility of a contemporary aesthetics of humor given that much of the art form is disseminated and controlled by the mass media and as such complicit in its work In particular it argues that the ideological situation of global capitalism poses an obvious predicament for the possibility of a socio politically efficacious stand up comedy in that ironic and skeptical distance is already characteristic of postmodern cynicism incorporated into the social fabric itself effectively rendering the comedic technique of satire synonymous with so called political comedy altogether appropriated or at least compromised and subsequently impotent From where then does a site of resistance emerge Through an analysis of a range of contemporary televisual digital and literary examples from the comedic routines of American comedian and talk show host Ellen DeGeneres South African satirist Pieter Dirk Uys and South African born and now American comedic talk show sensation Trevor Noah this book argues that a contemporary political comedy is reliant on a structuring aesthetic logic built around dissent disruption and difference

At Our Wits' End Edward Dutton, Michael A. Woodley of Menie, 2018-12-20 We are becoming less intelligent This is the shocking yet fascinating message of *At Our Wits' End* The authors take us on a journey through the growing body of evidence that we are significantly less intelligent now than we were a hundred years ago The research proving this is at once profoundly thought provoking highly controversial and it s currently only read by academics But the authors are passionate that it cannot remain ensconced in the ivory tower any longer With *At Our Wits' End* they present the first ever popular scientific book on this crucially important issue They prove that intelligence which is strongly genetic was increasing up until the breakthrough of the Industrial Revolution because we were subject to the rigors of Darwinian Selection meaning that lots of surviving children was the preserve of the cleverest But since then they show intelligence has gone into rapid decline because large families are increasingly the preserve of the least intelligent The book explores how this change has occurred and crucially what its consequences will be for the future Can we find a way of reversing the decline of our IQ Or will we witness the collapse of civilization and the rise of a new Dark Age
