The 'Ars musica' Attributed to Magister Lambertus/Aristoteles translated by Karen Desmond,2017-07-05 The treatise on musica plana and musica mensurabilis written by Lambertus Aristoteles is our main witness to thirteenth century musical thought in the decades between the treatises of Johannes de Garlandia and Franco of Cologne Most treatises on music of this century except for Franco's treatise on musical notation survive in only a single copy Lambertus's Ars musica extant in five sources is thus distinguished by a more substantial and long lasting manuscript tradition Unique in its ambitions this treatise presents both the rudiments of the practice of liturgical chant and the principles of polyphonic notation in a dense and rigorous manner like few music treatises of its time a conceptual framework characteristic of Parisian university culture in the thirteenth century This new edition of Lambertus's treatise is the first

since Edmond de Coussemaker's of 1864 Christian Meyer's meticulous edition is displayed on facing pages with Karen Desmond's English translation and the treatise and translation are prefaced by a substantial introduction to the text and its author by Christian Meyer translated by Barbara Haggh Huglo *Luther's Treatise On Christian Freedom and Its Legacy* Robert Kolb, 2019-11-08 This book analyzes Luther's treatise On Christian Freedom and its revolutionary re definition of what it means to be Christian as one freed by Christ from sin the accusation of God's law and death in order to be bound or bonded to the neighbor Robert Kolb puts the treatise in its historical context tracing its key ideas as they developed out of his medieval background and as they continued to mature throughout his life A contextual analysis of the text accompanies an overview of how this treatise was used or ignored throughout subsequent centuries including the more extensive impact it has had in the last half century **Dwight's Journal of Music** Anonymous, 2023-07-13 Reprint of the original first published in 1873 *Cyclopaedia Bibliographica* James Darling (Publisher), 1854 **Cyclopaedia Bibliographica** James Darling, 1854 **An Ecclesiastical History, Ancient and Modern** Johann Lorenz Mosheim, 1832 **Love Seeking Understanding** Michael Altenburger, Jacob W. Wood, 2024-06 As Catholic theology emerged from the crisis of modernity theologians turned to both patristic and medieval sources to recover lost wisdom from the theological tradition and adapt it to the challenges of an age that separated reason from faith the practice of theology from the spiritual life In time Thomas Aquinas and Hans Urs von Balthasar became the patrons of two very different approaches to this challenge St Thomas Aquinas offering contemporary theologians an approach rooted in the patristic medieval Latin synthesis of Augustine and Aristotle that also draws on the East and von Balthasar offering contemporary theologians a patristic modern approach rooted in the Eastern theological synthesis of Maximus the Confessor and Erich Przywara that also draws on the West Although Aquinas and Balthasar together with their contemporary followers sought to unite reason and faith theology and prayer contemporary Thomists and Balthasarians have tended to diverge widely from one another often with a polemical spirit How should one understand the theological genius of St Thomas Aquinas and Hans Urs von Balthasar today How can two of the greatest theologians in the Catholic tradition be brought together in more fruitful and peaceful dialogue This edited volume comprises contributions from a range of scholars who elucidate the depth and breadth of two of the most prominent figures of the Catholic tradition today A scholar from each school of thought contributes an essay on a particular theme Metaphysics Trinity Revelation Christology Anthropology Evil and Eschatology By presenting the two essays side by side this volume provides the contemporary reader with an opportunity to better engage both thinkers and understand disagreements and areas for constructive movement forward The tone of the volume is intentionally irenic seeking points of constructive dialogue and opening new pathways to the renewal of sapiential theology through a fruitful synthesis of Thomistic and Balthasarian thought [A Dictionary of the Bible](#) James Hastings, John Alexander Selbie, 1899 *Encyclopædia of Religion and Ethics: Picts-Sacraments* James Hastings, John Alexander Selbie, Louis Herbert Gray, 1919

Melamed, Michael A. Rosenthal, 2010-11-18 Spinoza's Theological Political Treatise was published anonymously in 1670 and immediately provoked huge debate Its main goal was to claim that the freedom of philosophizing can be allowed in a free republic and that it cannot be abolished without also destroying the peace and piety of that republic Spinoza criticizes the traditional claims of revelation and offers a social contract theory in which he praises democracy as the most natural form of government This Critical Guide presents essays by well known scholars in the field and covers a broad range of topics including the political theory and the metaphysics of the work religious toleration the reception of the text by other early modern philosophers and the relation of the text to Jewish thought It offers valuable perspectives on this important and influential work The Mennonite, 1925 *An Alchemical Quest for Universal Knowledge* Georgiana D. Hedesan, 2016-04-20 History of science credits the Flemish physician alchemist and philosopher Jan Baptist Van Helmont 1579 1644 for his contributions to the development of chemistry and medicine Yet as this book makes clear focussing on Van Helmont's impact on modern science does not do justice to the complexity of his thought or to his influence on successive generations of intellectuals like Robert Boyle or Gottfried Leibniz Revealing Van Helmont as an original thinker who sought to produce a post Scholastic synthesis of religion and natural philosophy Georgiana Hedesan reconstructs his ambitious quest for universal knowledge as it emerges from the text of the *Ortus medicinae* 1648 Published after Van Helmont's death by his son the work can best be understood as a compilation of finished and unfinished treatises the historical product of a life unsettled by religious persecution and personal misfortune The present book provides a coherent account of Van Helmont's philosophy by analysing its main tenets Divided into two parts the study opens with a background to Van Helmont's concept of an alchemical Christian philosophy demonstrating that his outlook was deeply grounded in the tradition of medical alchemy as reformed by Theophrastus von Hohenheim called Paracelsus 1493 1541 It then reconstitutes Van Helmont's biography while giving a historical dimension to his intellectual output The second part reconstructs Van Helmont's Christian philosophy investigating his views on God nature and man as well as his applied philosophy Hedesan also provides an account of the development of Van Helmont's thought throughout his life The conclusion sums up Van Helmont's intellectual achievement and highlights avenues of future research **Catalogue of the Library of the Peabody Institute of the City of Baltimore** Anonymous, 2024-01-09 Reprint of the original first published in 1883 **Literature Criticism from 1400 to 1800**, 1984 **An Ecclesiastical History** Johann Lorenz
