Islám Sir Edward Denison Ross,1927 **The Mysteries of New York** ,1882 Charting the Supernatural Judgements of Planet Earth Jerimiah Asher,2010-08-10 Chapter 3 The First Judgment The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago however the present commentary will deal only with the last tens of thousands of years of earth s existence In Genesis 1 2 the verses written by Moses as author of the Genesis account portray an earth that was veiled in darkness so that its form could not be discerned The earth at that time was covered with water ice high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water Table 2 God s spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark void planet God did not create a dark and dismal planet at the beginning because God does not create darkness in fact darkness is incompatible with His existence and presence So what had happened that God viewed Gen 1 2 such a decrepit state of the world Does scripture attempt to explain this phenomenon or does the inspired word of God remain silent on this issue It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a gap in time existed between Genesis 1 1 and Genesis 1 2 This gap in time would encompass a ruin reconstruction theme and the existence of pre Adamic living beings Obviously a huge catastrophic event would have had to occur to produce this decadent state of the world The gap concept was later popularized by mention in the margin notes of the Scofield Reference Bible

transmitted in the works of famous authors over a period of centuries Esoteric literature is the massive body of Western and other writings containing a philosophical contraband ever the same under a deceptive variety of surfaces or veils In the words of Marcel Proust the great writers have never done but one work Alfred de Vigny a nineteenth century poet novelist and playwright belongs to the literary brotherhood involved in the transmission of the concealed message Rabelais Voltaire Anatole France Ibsen and Proust are only a few of his fellow smugglers English and American literatures have their share of such writers So does the literary heritage of other European nations and of Latin America This book contains a glossary of major key words of the verbal algebra used by esoteric writers Sensitive readers are encouraged to read the biography and the glossary first and the poetry of Vigny next This will enable some of them to discover by and for themselves the full beauty and depth of the texts Extraordinary findings await the esoteric readers of the literary production of Vigny There are hints of the greatness of Atlantis There is a vast panorama of Time and Space There are suggestions of a startling view of the inner structure of planet Earth a view that is also reflected in the various utopias of classical authors Last but not least there is the generally unsuspected radiant reality of the works and the life of Vigny Please visit www.degn.org Bonhomme
