*Up the Line* Robert Silverberg, 1969      Up the Line Robert Silverberg, 2019-08-20 A ribald Byzantine tale of time tourism from the multiple Nebula and Hugo Award winning author Tor com It s 2059 and former law clerk Jud Elliott finds himself at loose ends until a chance meeting with a Time Courier gives him the inspiration to become one himself The job as a time traveling guide gives him the opportunity to indulge his love of Byzantine history in between shuttling tourists to such monumental events as the crucifixion and the assassination of JFK But there are strict rules to follow as a Time Courier put in place to guard against paradoxes and preserve the sanctity of now time Jud isn t used to following the rules especially when faced with temptation All it takes is one tiny slip here one misplaced step there and Jud could destroy his own timeline and cease to exist in the blink of an eye a practicality that s hard for Jud to grasp when he crosses paths with an eleventh century Byzantium beauty he can t resist A hugely ambitious enormously fun sly paradox peppered piece that chronicles the time tourist trade and all its perils specializing in Byzantine history *Strange Horizons* This novel is a comedy and it is funny but it is one of those black comedies where things go wrong and then the more the protagonist tries to fix things the more wrong they become until the ending is at one and the same time an O Henry punchline and a deep existential truth neat as a pin and just as sharp Kim Stanley Robinson      **The Time Machine Hypothesis** Damien Broderick, 2019-07-12 Every age has characteristic inventions that change the world In the 19th century it was the steam engine and the train For the 20th electric and gasoline power aircraft nuclear weapons even ventures into space Today the planet is awash with electronic business chatter and virtual reality entertainment so brilliant that the division between real and simulated is hard to discern But one new idea from the 19th century has failed so far to enter reality time travel using machines to turn the time dimension into a two way highway Will it come true as foreseen in science fiction Might we expect visits to and from the future sooner than from space That is the Time Machine Hypothesis examined here by futurist Damien Broderick an award winning writer and theorist of the genre of the future Broderick homes in on the topic through the lens of science as well as fiction exploring some fifty different time travel scenarios and conundrums found in the science fiction literature and film

Time Travel David Wittenberg, 2016-01-01 This stimulating contribution to literary theory reveals the deeply philosophical concerns and developments behind popular time travel sci fi London Review of Books In *Time Travel* literary theorist David Wittenberg argues that time travel fiction is not mere escapism but a narrative laboratory where theoretical questions about storytelling and by extension about the philosophy of temporality history and subjectivity are presented in story form Drawing on physics philosophy narrative theory psychoanalysis and film theory Wittenberg links innovations in time travel fiction to specific shifts in the popularization of science from nineteenth century evolutionary biology to twentieth century quantum physics and more recent multiverse cosmologies Wittenberg shows how popular awareness of new science led to surprising innovations in the literary time machine which evolved from a vehicle used for sociopolitical commentary

into a psychological device capable of exploring the temporal structure and significance of subjects viewpoints and historical events Time Travel draws on classic works of science fiction by H G Wells Edward Bellamy Robert Heinlein Samuel Delany and Harlan Ellison television shows such as The Twilight Zone and Star Trek and other popular entertainments These are read alongside theoretical work ranging from Einstein Schrödinger Stephen Hawking to Gérard Genette David Lewis and Gilles Deleuze Wittenberg argues that even the most mainstream audiences of popular time travel fiction and cinema are vigorously engaged with many of the same questions about temporality identity and history that concern literary theorists media and film scholars and philosophers
