**Enhancing Assessment in Higher Education** Tammie Cumming, M. David Miller, 2023-07-03 Assessment and accountability are now inescapable features of the landscape of higher education and ensuring that these assessments are psychometrically sound has become a high priority for accrediting agencies and therefore also for higher education institutions. Bringing together the higher education assessment literature with the psychometric literature this book focuses on how to practice sound assessment. This volume provides comprehensive and detailed descriptions of tools for and approaches to assessing student learning outcomes in higher education. The book is guided by the core purpose of assessment which is to enable faculty administrators and student affairs professionals with the information they need to increase student learning by making changes in policies curricula and other programs. The book is divided into three sections overview assessment in higher education and case studies. The central section looks at direct and indirect measures of student learning and how to assure the validity reliability and fairness of both types. The first six chapters the first two sections alternate chapters written by experts in assessment in higher education and experts in psychometrics. The remaining three chapters are applications of assessment practices in three higher education institutions. Finally the book includes a glossary of key terms in the field. A Co Publication with AACU and AIR. High Stakes Dale D. Johnson, Bonnie Johnson, 2006. High Stakes is a critical ethnography of an underfunded public elementary school in this era of accountability and high stakes testing. The book was written during the year the authors served as third and fourth grade teachers and it juxtaposes the experiences of mostly minority children of poverty and their teachers with an examination of high stakes testing policies and the loss of a comprehensive education to political dictates.

Special Regulations United States. Department of the Army, 1973. Developing Tests and Questionnaires for a National Assessment of Educational Achievement Prue Anderson, George Morgan, 2008-01-01. Developing Tests and Questionnaires for a National Assessment of Educational Achievement is the second in the National Assessments of Educational Achievement series. It is designed to help build capacity in carrying out technically adequate assessments of national levels of student achievement. It introduces readers to the activities involved in the development of achievement tests and includes developing an assessment framework writing multiple choice and constructed response type items pretesting producing test booklets and handscoring items. A section on questionnaire construction feat. Mastering Modern Psychological Testing Cecil R. Reynolds, Robert A. Altmann, Daniel N. Allen, 2021-05-13. This book provides a comprehensive introduction to psychological assessment and covers areas not typically addressed in existing test and measurements texts such as neuropsychological assessment and the use of tests in forensics settings. The book introduces the vocabulary of the profession and the most basic mathematics of testing early as being fundamental to understanding the field. Numerous examples are drawn from tests that the authors have written or

otherwise helped to develop reflecting the authors deep understanding of these tests and their familiarity with problems encountered in test development use and interpretation Following the introduction of the basic areas of psychometrics the book moves to areas of testing that represent various approaches to measuring different psychological constructs memory language executive function etc with emphasis on the complex issue of cultural bias in testing Examples of existing tests are given throughout the book however this book is not designed to prepare students to go out and administer score and interpret specific psychological tests Rather the purpose of this book is to provide the foundational core of knowledge about tests measurement and assessment constructs issues and quantitative tools Explains what constitutes a psychological test how tests are developed how they are best used and how to evaluate their strengths and weaknesses Describes areas of testing that represent different approaches to measuring different psychological constructs Explains applications of psychological testing to issues in the courts Addresses how test authors and publishers design and research tests to address the difficult and demanding issues of cultural differences in test performance and interpretation of test results *Primer on Large-Scale Assessments of Educational Achievement* Marguerite Clarke,Diego Luna-Bazaldua,2021-06-09 To improve their education systems countries around the world have increasingly initiated national largescale assessment programs or participated in international or regional large scale assessment studies for the first time Well constructed large scale assessments can provide credible information on student achievement levels which in turn can promote better resource allocation to schools stronger education service delivery and improved learning outcomes The World Bank developed this Primer on Large Scale Assessments of Educational Achievement as a firststop resource for those wanting to understand how to design administer analyze and use the results from these assessments of student achievement The book addresses frequently asked questions from people working on large scale assessment projects and those interested in making informed decisionsabout them Each chapter introduces a stage in the assessment process and offers advice guidelines andcountry examples This book also reports on emerging trends in large scale assessment and provides updated information on regional and international large scale assessment programs DIRK HASTEDT Executive Director of the International Association for the Evaluation of Educational Achievement IEA A special feature of the publication is that it not only gives an overview of technical specifications but also includes examples from around the world on how countries are conducting large scale assessments what they found and how the results were used With this perspective the Primer on Large Scale Assessments of Educational Achievement is an excellent and easy to read publication to get a comprehensive overview oflarge scale assessments and how and why they are conducted SILVIA MONTOYA Director of UNESCO Institute for Statistics UNESCO UIS If you are responsible for learning assessment in a country and are searching for a comprehensive yet readable guide on large scale assessment this is your book Extremely well structured and written this primer is easy to follow and makes points clearly and concisely It is an excellent resource that explores the steps for a good large scale assessment with examples from
