**Reckoning with Homelessness** Kim Hopper, 2014-07-15 It must be some kind of experiment or something to see how long people can live without food without shelter without security Homeless woman in Grand Central Station Kim Hopper has dedicated his career to trying to address the problem of homelessness in the United States In this powerful book he draws upon his dual strengths as anthropologist and advocate to provide a deeper understanding of the roots of homelessness He also investigates the complex attitudes brought to bear on the issue since his pioneering fieldwork with Ellen Baxter twenty years ago helped put homelessness on the public agenda Beginning with his own introduction to the problem in New York Hopper uses ethnography literature history and activism to place homelessness into historical context and to trace the process by which homelessness came to be recognized as an issue He tells the largely neglected story of homelessness among African Americans and vividly portrays various sites of public homelessness such as airports His accounts of life on the streets make for powerful reading SAT Subject Test World History William V. Consumption and Generational Change Ian Rees Jones, Paul Higgs, David J. Ekerdt, 2011-12-31 The study of consumption in social life is growing Moving from being a relatively unimportant part of the processes of production distribution and exchange questions of how people consume and to what ends now occupy center stage Today's capitalism is exemplified by a global arena of consumption in which distance is no obstacle to distribution and ownership Equally social distinctions that accompanied classically modern forms of consumption are now more complex and fluid than classifications of high and popular culture allow This book addresses the rise of consumer culture and the various attempts to explain and account for it It considers the view that a particular generational framework was formed in the post war period and has been carried on into the early twentieth century with particular consequences for the experience of later life The rise of individualism of mass consumption leisure and lifestyles have been accompanied by the democratization of social forms and for many a corrosion of

community and social cohesion The text highlights how understanding is gained from examining the generational habits that developed in tandem with the rise of mass consumption Drawing on historical perspectives and comparative studies the book addresses social change with reference to generation effects and conflict Having set the scene in terms of the literature on consumption lifestyles and generational change the volume poses key questions in relation to the transformation of later life that are addressed in turn by the contributors This is a key volume as we enter the second decade of a new century

**Medieval Misogyny and the Invention of Western Romantic Love** R. Howard Bloch, 2009-02-15 Until now the advent of Western romantic love has been seen as a liberation from or antidote to ten centuries of misogyny In this major contribution to gender studies R Howard Bloch demonstrates how similar the ubiquitous antifeminism of medieval times and the romantic idealization of woman actually are Through analyses of a broad range of patristic and medieval texts Bloch explores the Christian construction of gender in which the flesh is feminized the feminine is aestheticized and aesthetics are condemned in theological terms Tracing the underlying theme of virginity from the Church Fathers to the courtly poets Bloch establishes the continuity between early Christian antifeminism and the idealization of woman that emerged in the twelfth and thirteenth centuries In conclusion he explains the likely social economic and legal causes for the seeming inversion of the terms of misogyny into those of an idealizing tradition of love that exists alongside its earlier avatar until the current era This startling study will be of great value to students of medieval literature as well as to historians of culture and gender

**Children's Language** Keith E. Nelson, 1982 First published in 1982 Routledge is an imprint of Taylor Francis an informa company The Encyclopædia Britannica Hugh Chisholm, 1911 **Violence in Late Antiquity** H.A. Drake, 2016-12-05 Violence is virtually synonymous in the popular imagination with the period of the Later Roman Empire a time when waves of barbarian invaders combined with urban mobs and religious zealots to bring an end to centuries of peace and serenity All of these images come together in the Visigothic sack of the city of Rome in A D 410 a date commonly used for the fall of the entire empire But was this period in fact as violent as it has been portrayed A new generation of scholars in the field of Late Antiquity has called into question the standard narrative pointing to evidence of cultural continuity and peaceful interaction between barbarians and Romans Christians and pagans To assess the state of this question the fifth biennial Shifting Frontiers conference was devoted to the theme of Violence in Late Antiquity Conferees addressed aspects of this question from standpoints as diverse as archaeology and rhetoric anthropology and economics A selection of the papers then delivered have been prepared for the present volume along with others commissioned for the purpose and a concluding essay by Martin Zimmerman reflecting on the theme of the book The four sections on Defining Violence Legitimate Violence Violence and Rhetoric and Religious Violence are each introduced by a theme essay from a leading scholar in the field While offering no definitive answer to the question of violence in Late Antiquity the papers in this volume aim to stimulate a fresh look at this age old problem
