OVERVIEW	
Objective	
<The primary purpose of the test plan is to validate that the user requirements as defined in the Software Requirement Specification are being met. Users will verify the operability of the system, and verify all functional areas and output data. System performance will also be evaluated against the performance requirements specified in the Software Requirement Specification. The output data produced will be compared, where feasible, with results obtained from independent calculations. >	
BACKGROUND — historical information that relates to this project	
<If information is needed to help the test team, define the following. Summarize the history of the project. A brief summary of the primary functionality of the system would be appropriate. A test plan should be able to stand alone and be implemented by someone that has not participated on the design and development of the system itself. >
