Rury,2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *Interactive Learning: Daily Sentence Editing Grd 3* Teacher Created Resources,2011 Use these fully interactive products to teach students important skills in grammar punctuation and spelling The self correcting activities work on ALL brands of interactive whiteboards The PC Mac CD provides 180 to 270 ready to edit sentences per grade In addition thousands more sentences and paragraphs can be created and saved The book format makes it easy for teachers to see the entire scope of the product at a glance and to copy pages as needed for individual work *Watch What You Do!
