Feeling Things Stephanie Downes, Sally Holloway, Sarah Randles, 2018-01-13 This interdisciplinary essay collection investigates the various interactions of people feelings and things throughout premodern Europe It focuses on the period before mass production when limited literacy often prioritised material methods of communication The subject of materiality has been of increasing significance in recent historical inquiry alongside growing emphasis on the relationships between objects emotions and affect in archaeological and sociological research The historical intersections between materiality and emotions however have remained under theorised particularly with respect to artefacts that have continuing resonance over extended periods of time or across cultural and geographical space *Feeling Things* addresses the need to develop an appropriate cross disciplinary theoretical framework for the analysis of objects and emotions in European history with special attention to the need to track the shifting emotional valencies of objects from the past to the present and from one place and cultural context to another The collection draws together an international group of historians art historians curators and literary scholars working on a variety of cultural literary visual and material sources Objects considered include books letters prosthetics religious relics shoes stone and textiles Many of these have been preserved in international galleries museums and archives while others have remained in their original locations even as their contexts have changed over time The chapters consider the ways in which emotions such as despair fear grief hope love and wonder become inscribed in and ascribed to these items producing emotional objects of significance and agency Such objects can be harnessed to create affirm or express individual relationships as for example in religious devotion and practice or in the construction of cultural communal and national identities

Underground Studies and Geocriticism and more broadly in the Urban Humanities and Spatial Humanities **On My Own** Florence Falk,2007-03-20 At some point over the course of the average American woman s life she will find herself alone whether she is divorced widowed single or in a loveless isolating relationship And when that time comes it is likely that she will be at a loss as to how to handle it As a society we have an unspoken but omnipresent belief that a woman alone is an outcast inherently flawed in some way In this invigorating supportive book psychotherapist Florence Falk aims to take the fear doubt confusion and helplessness out of being a woman alone Falk invites all women to find their own paths toward an

authentic selfhood to discover the pleasures and riches of solitude and to reconnect with others through a newfound sense of self confidence Like so many women before her Florence Falk found herself divorced alone and unsure of herself Soon she realized that by embracing her solitude for what it was a potentially enriching and life altering experience she could turn what once would have felt like loneliness into a far more positive and empowered aloneness Falk notes that each of us has two opposing drives one causes us to yearn to make close connections with others and the other pulls us back into ourselves into the need for selfhood and certainty that can only be shaped through solitude In order to be whole she says we must heed both of those impulses But in our modern culture the former is stressed while the latter is neglected even vilified On My Own boldly shifts that paradigm With inspiring intimate stories of women from all backgrounds Falk illuminates the essential role that being alone plays in women s lives Whether she is in a stable relationship or on her own every woman must learn to be by herself for if she can be fully free unfettered by society s stigmas about being alone life and all its possibilities will open up for her And as Falk demonstrates once a woman has discovered the richness of solitude she is not likely to give it up so easily

Between a Rock and a Hard Place Aron Ralston, 2004-09-15 One of the most extraordinary survival stories ever told Aron Ralston's searing account of his six days trapped in one of the most remote spots in America and how one inspired act of bravery brought him home It started out as a simple hike in the Utah canyonlands on a warm Saturday afternoon For Aron Ralston a twenty seven year old mountaineer and outdoorsman a walk into the remote Blue John Canyon was a chance to get a break from a winter of solo climbing Colorado's highest and toughest peaks He'd earned this weekend vacation and though he met two charming women along the way by early afternoon he finally found himself in his element alone with just the beauty of the natural world all around him It was 2:41 P M Eight miles from his truck in a deep and narrow slot canyon Aron was climbing down off a wedged boulder when the rock suddenly and terrifyingly came loose Before he could get out of the way the falling stone pinned his right hand and wrist against the canyon wall And so began six days of hell for Aron Ralston With scant water and little food no jacket for the painfully cold nights and the terrible knowledge that he'd told no one where he was headed he found himself facing a lingering death trapped by an 800 pound boulder 100 feet down in the bottom of a canyon As he eliminated his escape options one by one through the days Aron faced the full horror of his predicament By the time any possible search and rescue effort would begin he'd most probably have died of dehydration if a flash flood didn't

drown him before that What does one do in the face of almost certain death Using the video camera from his pack Aron began recording his grateful good byes to his family and friends all over the country thinking back over a life filled with adventure and documenting a last will and testament with the hope that someone would find it For their part his family and friends had instigated a major search for Aron the amazing details of which are also documented here for the first time The knowledge of their love kept Aron Ralston alive until a divine inspiration on Thursday morning solved the riddle of the boulder Aron then committed the most extreme act imaginable to save himself Between a Rock and a Hard Place a brilliantly written funny honest inspiring and downright astonishing report from the line where death meets life will surely take its place in the annals of classic adventure stories **Subject Guide to Books in Print** ,1975 **Scottish cinema**
