Les traductions françaises du De regimine principum de Gilles de Rome Noëlle-Laetitia Perret, 2011-05-23 This book deals with the different translations into Old French of Giles of Rome's *De regimine principum* dedicated to Philippe le Bel around 1279 and their readership First hand manuscript research has permitted us to understand not only the general context of their production but also the social conditions of their transmission and circulation This work concentrates on different aspects of the reception of Giles of Rome's pedagogical ideas by his translators who are by no means passive in this process This book provides not only a concrete idea of what Giles of Rome's educational ideas became when mediated for the consumption of a lay public but also how the translators in their translations supported the transmission of re appropriated knowledge

Children's Stories and 'Child-Time' in the Works of Joseph Cornell and the Transatlantic Avant-Garde Analisa Leppanen-Guerra, 2017-07-05 Focusing on his evocative and profound references to children and their stories Children's Stories and Child Time in the Works of Joseph Cornell and the Transatlantic Avant Garde studies the relationship between the artist's work on childhood and his search for a transfigured concept of time This study also situates Cornell and his art in the broader context of the transatlantic avant garde of the 1930s and 40s Analisa Leppanen Guerra explores the children's stories that Cornell perceived as fundamental in order to unpack the dense network of associations in his understudied multimedia works Moving away from the usual focus on his box constructions the author directs her attention to Cornell's film and theater scenarios explorations dossiers and book objects One highlight of this study is a work that may well be the first artist's book of its kind and has only been exhibited twice Untitled Journal d'Agriculture Pratique presented as Cornell's enigmatic tribute to Lewis Carroll's Alice books
