Test & Evaluation Management Guide
Chapter 1

1.1 Introduction

This chapter provides an introduction to the policy and organizations that govern the conduct of T&E activities within the DoD and discusses congressional legislation of T&E activities for compliance by DoD. It outlines the responsibilities of DoD test organizations at the Office of the Secretary of Defense (OSD) and Service levels and describes related T&E policy.

1.2 Congress

Congress requires the DoD to provide the following reports that include information on T&E:

- **Selected Acquisition Report (SAR).** This report consists of cost, schedule, and performance data. The SAR describes Acquisition Category (ACAT) I system characteristics required and outlines significant progress and problems encountered. It lists tests completed and issues identified during testing. The program manager (PM) uses the Consolidated Acquisition Reporting System software to prepare the SAR.

- **DOT&E Annual Report.** This report is provided by the DOT&E to the Secretary of Defense (SecDef) and the committees on Armed Services, National Security, and Appropriations. The report provides a narrative and resource summary of all operational test and evaluation (OT&E) and related issues, initiatives, other interest areas, activities, and assessments in the previous fiscal year. When oversight of live-fire testing (LFT) was moved to DOT&E, this issue was added to the report.

- **Beyond Low-Rate Initial Production (BLRIP) Report.** Before proceeding to BLRIP for each major defense acquisition program (MDAP), the DOT&E must report to the SecDef, Deputy Secretary of Defense, Under Secretary of Defense for Acquisition, Technology and Logistics (USD(AT&L)), Secretaries of the Military Departments, and Congress. This report addresses the adequacy of the Service initial operational test & evaluation (IOT&E) and whether the T&E results confirm that the tested item or component is effective, suitable, and survivable for combat. When oversight of live-fire test & evaluation (LFT&E) was moved to the DOT&E, the LFT Report was added to the BLRIP report content.

- **Foreign Comparative Testing (FCT) Report.** The USD(AT&L) should notify Congress a minimum of 30 days prior to the commitment of funds for initiation of new FCT evaluations of equipment produced by select allied and friendly foreign countries.

- **Joint DASD(DT&E) and Deputy Assistant Secretary of Defense for Systems Engineering (DASD(SE)) Annual Report.** This report is required by statute to be provided to the committees on Armed Services and Appropriations. The joint report includes the significant Developmental Test and Evaluation (DT&E) and systems engineering (SE) activities for the Department's MDAPs, major automated information systems (MAIS), and special interest programs. The report
