Built on her successful test prep training seminars, she navigates each special education domain and competency and covers the philosophies behind the test questions, teaching stories that improve answer recall, tips for analyzing test questions, ways to use key words and concepts to improve test results, hints for managing time while testing, tips for before, during, and after the exam, techniques for in-state and out-of-state test takers. With its empowering approach, this book shows you how to think like the test was developed and improve your test results.
