Teaching With Text-Based Questions Kevin Thomas Smith, 2014-03-14 Help your students navigate complex texts in history social studies and English language arts This book shows you how to use a key tool text based questions to build students literacy and critical thinking skills and meet the Common Core State Standards You ll learn how to ask text based questions about different types of nonfiction and visual texts including primary and secondary sources maps charts and paintings You ll also get ideas for teaching students to examine point of view write analytical responses compare texts cite textual evidence and pose their own high level questions The book is filled with examples that you can use immediately or modify as needed Each chapter ends with a reflection section to help you adapt the ideas to your own classroom What s Inside Helpful information on teaching different types of nonfiction texts including literary nonfiction informational texts primary and secondary sources and visual texts Ideas for locating primary sources Questions students should ask about every text Techniques for soliciting higher order questions from students Ways to get students to think critically about the relationships between texts Strategies to help students integrate information from different types of sources a skill that will help students respond to performance tasks on the PARCC and SBAC assessments and DBQs on AP exams Tips for teaching students to write good responses to text based questions including how to cite sources and incorporate point of view Ideas for using rubrics and peer grading to evaluate students responses Connections to the informational reading standards of the Common Core State Standards for English Language Arts for grades 3 12 and of the Common Core State Standards for Literacy in History Social Studies Science and Technical Subjects *Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education* Haas, Leslie, Tussey, Jill, 2021-01-15 The idea of storytelling goes beyond the borders of language culture or traditional education and has historically been a tie that bonds families communities and nations Digital storytelling offers opportunities for authentic academic and non academic literacy learning across a multitude of genres It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive the connections between digital storytelling and disciplinary literacy warrant considered exploration *Connecting Disciplinary Literacy and Digital Storytelling in K 12 Education* develops a conceptual framework around pedagogical connections to digital storytelling within K 12 disciplinary literacy practices This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels Covering topics that include immersive storytelling multiliteracies social justice and pedagogical storytelling it is intended for stakeholders interested in innovative K 12 disciplinary literacy skill development research and practices including but not limited to curriculum directors education faculty educational researchers instructional facilitators literacy professionals teachers pre service teachers professional development coordinators teacher preparation programs and students **The Writing Revolution** Judith C.

Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content *Differentiated Literacy Instruction in Grades 4 and 5* Sharon
