Roberto Scarciglia, 2023-08-14 This comprehensive book explores different methods and approaches to legal comparison considering how they are perceived and understood by the reader It examines how comparative discussion can be used effectively in both the classroom and courtroom The author builds on both analytical and methodological perspectives to provide an insight into the phenomenon of legal pluralism across global legal systems      Recent Advances in Mathematics

Textbook Research and Development Chunxia Qi, Lianghuo Fan, Jian Liu, Qimeng Liu, Lianchun Dong, 2024-11-08 This open access book documents the issues and developments in mathematics textbook research as presented at the Fourth International Conference on Mathematics Textbook Research and Development ICMT 4 held at Beijing Normal University China in November 2022 It showcases research and practical experiences from the mathematics textbook research field from over 20 countries and reflects the current trend of curriculum reform globally in terms of mathematics textbook research It helps readers gain knowledge about various issues related to the development content and use of mathematics textbooks from kindergarten to university level in and out of school settings in paper or digital format as well as the historical and recent developments and future directions in mathematics textbook research ICMT 4 continues the successful series started in 2014 with the first ICMT held in Southampton UK which was followed in 2017 by ICMT 2 in Rio de Janeiro Brazil and in 2019 by ICMT 3 in Paderborn Germany      **Tyranny of the Textbook** Beverlee Jobrack, 2011-12-23 Educational reforms and standards have been a topic of public debate for decades with the latest go round being the State Common Core Curriculum Standards But time and again those reforms have failed and each set of standards no matter how new and different has had little impact on improving student achievement Why The textbooks Textbooks sell based on design and superficial features not because they are based on the latest research on how children learn and how well they promote student achievement In Tyranny of the Textbook Beverlee Jobrack retired from educational publishing sheds light on why this happens She gives an engaging and fascinating look behind the scenes of how K 12 textbooks are developed written adopted and sold And perhaps most importantly she clearly spells out how the system can change so that reforms and standards have a shot at finally being effective Did you know Reform efforts have focused on writing and rewriting standards and tests but these rarely have any effect on the core curriculum that is published School districts and states don t use effectiveness as a criterion for evaluating and purchasing textbooks Publishers don t offer textbooks with better content or the latest teaching methods because teachers don t want textbooks that require them to change their practices Teachers report that they don t rely on a textbook in their class but research shows that they do Three companies publish 75 percent of the K 12 educational materials Those three companies are producing similar programs with the same instructional strategies none of which require teachers to change their practices significantly Publishers write textbooks for California and Texas All of the other markets have to make

do with books only superficially adjusted for their states      The Palgrave Handbook of Textbook Studies Eckhardt Fuchs, Annekatrin Bock, 2018-04-04 This volume examines the present status and future trends of textbook studies Cutting edge essays by leading experts and emerging scholars explore the field's theories methodologies and topics with the goal of generating debate and providing new perspectives The Georg Eckert Institute's unique transdisciplinary focus on international textbook research has shaped this handbook which explores the history of the discipline the production processes and contexts that influence textbooks the concepts they incorporate how this medium itself is received and future trends The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field The book aims to become the central interdisciplinary reference for textbook researchers students and educational practitioners      Comparing Religions Jeffrey J. Kripal, Ata Anzali, Andrea R. Jain, Erin Prophet, Stefan Sanchez, 2024-03-15 Teaches students the art and practice of comparison in the globalizing world fully updated to reflect recent scholarship and major developments in the field Comparing Religions The Study of Us that Changes Us is a wholly original absorbing and provocative reimagining of the comparative study of religion in the 21st century The first textbook of its kind to foreground the extraordinary or paranormal aspects of religious experience this innovative volume reviews the fundamental tenets of the world's religions discusses the benefits and problems of comparative inquiry explores how the practice can impact a person's worldview and values and much more Asserting that religions have always engaged in comparing one another the authors provide insights into the history trends debates and questions of explicit comparativism in the modern world Easily accessible chapters examine the challenges of studying religion using a comparative approach rather than focusing on religious identity inspiring students to think seriously about religious pluralism as they engage in comparative practice Throughout the text a wealth of diverse case studies and vivid illustrations are complemented by chapter outlines summaries toolkits discussion questions and other learning features Substantially updated with new and revised material the second edition of Comparing Religions Draws from both comparative work and critical theory to present a well balanced introduction to contemporary practice Explains classic comparative themes provides a historical outline of comparative practices and offers key strategies for understanding analyzing and re reading religion Draws on a wide range of religious traditions to illustrate the complexity and efficacy of comparative practice Embraces the transcendent nature of the religious experience in all its forms including in popular culture film and television Contains a classroom proven three part structure with easy to digest thematically organized chapters Features a companion website with information on individual religious traditions additional images a glossary discussion questions and links to supplementary material Comparing Religions The Study of Us that Changes Us Second Edition is the perfect textbook for undergraduate students and faculty in comparative religion the study of religion and world religions as well as a valuable resource for general readers interested in understanding this rewarding area      **Proceedings**

**Secondary School English Education in Asia** Bernard Spolsky, Kiwan Sung, 2015-03-27 Continuing on from the previously published Primary School English Language Education in Asia: From Policy to Practice, Moon Spolsky 2012, this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries: Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam, and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. Secondary School English Education in Asia: From Policy to Practice critically analyses both sides of the English language debate, from advantages to complications, in its chapters including Educating for the 21st Century: The Singapore Experience, Miles to Go: Secondary Level English Language Education in India, English Language Education Innovation for the Vietnamese Secondary School, The Project 2020: Exploring the Value of ELT as a Secondary School Subject in China, A Multi-goal Model for English Curriculum. Secondary School English Education in Asia will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers, and teachers, primarily those teaching in Asia.
