Sustainable Society Making Business Government And Money Work Again:

Sustainable Society Rudolf Isler, 2014-10-06 Western society has faced many challenges in the last few years Economies have come under extreme pressure and so have governments and business with obvious knock on effects for wider society The battle between regulation and the free market has never been fiercer Looking for guidance and sustainable ways to get society back on track Rudolf Isler considers ideas from unorthodox thinkers including Silvio Gesell Henry George and Rudolf Steiner exploring everything from regional currencies to land reform Steiner proposed a threefold social structure which Isler teases out exploring the implications of this approach for our modern societies He finds a surprisingly practical system with potential for immediate implementation in small steps along with longer term rethinking This is a down to earth open minded book which helps us explore viable alternatives to the current situation **RUDOLF STEINER AND SOCIAL REFORM**

Richard Masters, 2022-04-26 How might we improve the way we organize society so that human beings can live in greater peace dignity and justice Against a background of chronic discontent and social conflict around the globe Richard Masters presents a comprehensive survey of Rudolf Steiner's work on societal reform sifting through and summarizing the content of dozens of books lectures and discussions Rudolf Steiner 1861-1925 is not known today for his social thinking but he wrote and spoke at length on such issues during and after WWI engaging with audiences ranging from royalty politicians and business owners to illiterate dispossessed factory workers Central to his ideas was his threefold approach to politics economics and culture arguing that their roles should be clarified and the three spheres allowed to thrive independently Drawing on the full range of source material including much not yet available in English the author reveals the continuing relevance of Steiner's work to our contemporary situation With an emphasis on accessibility he builds up the subject methodically studying the main ideas from differing perspectives He also provides candid reflections on the degree to which Steiner's proposals are still applicable to current policy and practice Authoritative and yet jargon free Rudolf Steiner and Social Reform offers innovative and stimulating ideas for anyone concerned with the state of our world **Evolving Work**

Ronnie Lessem, Tony Bradley, 2018-08-06 The idea of Self and the authenticity of particular identities have been rapidly dissolving in the acids of post modern globalising capitalism The hegemony of patterns of work wage labor and the operation of labour markets in the American West and European North has ridden rough shod over distinctive ways of enabling communities to flourish in many parts of the Southern and Eastern worlds Global South But this is not inevitable Indeed as this book indicates there are many practical examples across the globe that connect with some of the most significant theoretical challenges to the operation of dehumanising work which reveal that a profound reversal is taking place As such the core theme of this book is to show that a movement is occurring whereby self employment can be transformed into communal work that employs the Self in ways that release the authentic vocations of people individually and collectively The approach taken in these chapters traverses the globe utilising the original integral worlds model that will be familiar to

students of the Trans4M Routledge Transformation and Innovation series developed over more than a decade Such a standpoint points the way to the release of particular social and economic cultures in each of what we term the four realities or worldviews of South East North and Western worlds In this book we use the methodology of GENEalogy identifying the realms associated with each world to show how the rhythms that is Grounding Emergence Navigation and Effect of each is leading to greater economic social and spiritual freedom for individuals organisations communities and indeed entire societies

The Big Society Great Britain: Parliament: House of Commons: Public Administration Select Committee,2011-12-14 This report which builds on previous reports by PASC warns that the Big Society project is hampered by the lack of a clear implementation plan leading to public confusion about the policy agenda eighteen months into this administration PASC has yet to see how the government will engage these charities and voluntary groups who wish to do so to deliver public services the little society rather than big business and Tesco charities Government must address the barriers such bodies experience

in the contracting and commissioning system which means developing a plan to address roles tasks responsibilities and skills in Whitehall departments PASC concludes there are two major practical steps Government must take Firstly they must create a single Big Society Minister who has a cross cutting brief to help other Ministers to drive through this agenda once they begin reporting progress against the aims of Open Public Services White Paper from April 2012 Secondly they need to implement an impact assessment to be applied to every Government policy statutory instrument and new Bill which answers the simple question what substantively will this do to build social capital people power and social entrepreneurs PASC says early examples in practice like the Work Programme have left service providers such as the charitable sector who would play a major role in the Big Society with serious reservations The danger is that big contractors and the largest charities continue to dominate at the expense of small and local providers EU contracting rules need to be revised and smaller providers should be consulted on the legislative and bureaucratic barriers There needs to be a cultural shift in Whitehall departments
