T. Suzuki,2025-08-26 D T Suzuki s 1950s lectures at Columbia University were foundational for the postwar Zen boom Speaking softly in a bookcase lined room Suzuki then in his eighties introduced East Asian Buddhism to a rapt audience of the general public scholars and students He offered a distinctive interpretation of Zen weaving together his understanding of classical Buddhist texts especially the Flower Garland Sutra with Christian mysticism psychology and twentieth century European and American philosophy The freewheeling lectures captivated listeners drawn from the New York intelligentsia and art world including Carolyn Brown John Cage Arthur Danto Sari Dienes Erich Fromm Phillip Guston Ibram Lassaw and Dorothy Norman and catalyzed public interest in Buddhism Spreading Indra s Net presents Suzuki s 1952 1953 lectures in full giving a vivid look at how one of the most

important global Buddhist figures of the twentieth century interpreted Zen for an American audience Drawing on archival research in Japan and the United States editor Richard M Jaffe provides an extensive introduction that traces Suzuki s path to Columbia analyzes the content of the lectures and surveys their reception Among the most accessible works of a major figure and a record of a crucial moment in New York history this book displays Suzuki s gifts as a teacher scholar writer and thinker

Meditation Jr. Shapiro,2017-07-12 Many claim that meditation is effective in the treatment of many ailments associated with stress and high blood pressure and in the management of pain While there are many popular books on meditation few embrace the science as well as the art of meditation In this volume Shapiro and Walsh fill this need by assembling a complete collection of scholarly articles *Meditation Classic and Contemporary Perspectives* From an academic rather than a popular vantage the volume takes the claims and counterclaims about meditation to a deeper analytical level by including studies from clinical psychology and psychiatry neuroscience psychophysiology and biochemistry Each selection is a contribution to the field either as a classic of research or by being methodologically elegant heuristically interesting or creative Original articles cover such topics as the effects of meditation in the treatment of stress hypertension and addictions the comparison of meditation with other self regulation strategies the adverse effects of meditation and meditation induced altered states of consciousness Concluding with a major bibliography of related works *Meditation* offers the reader a valuable overview of the state and possible future directions of meditation research Today in the popular media and elsewhere debate continues Is meditation an effective technique for spiritual and physical healing or is it quackery *Meditation Classic and Contemporary Perspectives* weighs in on this debate by presenting what continues to be the most complete collection of scholarly articles ever amassed on the subject of meditation

Psychedelic Mysticism Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s *Psychedelic Mysticism* Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality

entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world

American Trip Ido Hartogsohn,2020-07-14 How historical social and cultural forces shaped the psychedelic experience in midcentury America from CIA experiments with LSD to Timothy Leary's Harvard Psilocybin Project Are psychedelics invaluable therapeutic medicines or dangerously unpredictable drugs that precipitate psychosis Tools for spiritual communion or cognitive enhancers that spark innovation Activators for one's private muse or part of a political movement In the 1950s and 1960s researchers studied psychedelics in all these incarnations often arriving at contradictory results In *American Trip* Ido Hartogsohn examines how the psychedelic experience in midcentury America was shaped by historical social and cultural forces by set the mindset of the user and setting the environments in which the experience takes place

Schrödinger's Cat Smile Sergey Suprun,Anatoly Suprun,Victor Petrenko,2022-10-07 The book presents a multidisciplinary analysis of the context of quantum physics experiments and the function of the human mind that makes it possible to demonstrate that an object based model of reality formed at the level of the unconscious is the basis of our worldview The consciousness experiences a time flow because of the specific features of perception in the form of a model with a sequential fixation of events Together with the need to relate objects in terms of the model this generates a space time representation of the world around us Acceptance of a mental character of our construct of reality allows for resolution of the problems in quantum physics and its paradoxes thereby opening the way to an insight into reality The presented material is organized in a specific order to facilitate the reader's understanding First the fact that if there are no objects in the area of quantum mechanics then they belong to the corresponding model rather than the reality is proved by case studies of the most discussed and relevant paradoxes of quantum physics The authors consider a topological variant in constructing an object based space that describes the physical properties of an object that are the most verified in science and describable with mathematical relations The functionality of the proposed construct is tested by deriving the laws of conservation of energy and momentum in a relativistic form The book is oriented towards experts in physics and psychology advanced students and readers interested in state of the art science and the philosophy connected to it
