Beyond Texas Through Time Walter Louis Buenger,Arnoldo De León,2011 In 1991 Walter L Buenger and the late Robert A Calvert compiled a pioneering work in Texas historiography Texas Through Time a seminal survey and critique of the field of Texas history from its inception through the end of the 1980s Now Buenger and Arnoldo De Le n have assembled an important new collection that assesses the current state of Texas historiography building on the many changes in understanding and interpretation that have developed in the nearly twenty years since the publication of the original volume This new work Beyond Texas Through Time departs from the earlier volume s emphasis on the dichotomy between traditionalism and revisionism as they applied to various eras Instead the studies in this book consider the topical and thematic understandings of Texas historiography embraced by a new generation of Texas historians as they reflect analytically on the work of the past two decades The resulting approaches thus offer the potential of informing the study of themes and topics other than those specifically introduced in this volume extending its usefulness well beyond a review of the literature In addition the volume editors introduction proposes the application of cultural constructionism as an important third perspective on the thematic and topical analyses provided by the other contributors Beyond Texas Through Time offers both a vantage point and a benchmark serving as an important reference for scholars and advanced students of history and historiography even beyond the borders of Texas

Gilman,Steven A. LeBlanc,2017-12-19 A thousand years ago village farmers in the Mimbres Valley of what is now southwestern New Mexico created stunning black on white pottery Mimbres pottery has added a fascinating dimension to southwestern archaeology but it has also led to the partial or total destruction of most Mimbres sites The Mimbres Foundation in one of the few modern investigations of a Mimbres pueblo excavated the Mattocks site containing about 180 surface rooms in addition to pit structures Mimbres Life and Society details the Mattocks site s architecture and artifacts and it includes 160 figures showing more than 400 photographs of painted vessels from the site Mimbres pueblos as early examples of people using surface room blocks are ideal for investigating questions about how and why people moved from earlier subterranean pit structures to aboveground room blocks The authors consider the number of households living at the site before and after the transition as well as the lack of evidence for subsistence intensification and population growth as causes of this transition These analyses suggest that each room block on the site housed a single family as opposed to multiple families the more common interpretation There were not necessarily more households on the site during the Classic period than earlier Patricia A Gilman and Steven A LeBlanc spent five seasons excavating at the Mattocks site and many more analyzing and writing about Mattocks site data They note that subtle social differences among people were at play and they emphasize that the Mattocks site may be unique among Mimbres pueblos in many aspects Mimbres Life and Society reveals broad ranging implications for southwestern archaeologists and anyone interested in understanding the ancient Southwest and early village societies
