interviews with Randy Weaver's family, government insiders and others, Jess Walter traces the paths that led the Weavers to their confrontation with federal agents and led the government to treat a family like a gang of criminals. This is the story of what happened on Ruby Ridge, the tragic and unlikely series of events that destroyed a family, brought down the number two man in the FBI and left in its wake a nation increasingly attuned to the dangers of unchecked federal power. **So Far Gone** Jess Walter, 2025-06-10 A warm, funny, loving novel. It's an American original. Ann Patchett, New York Times bestselling author of *Tom Lake*. So Far Gone is a marvel. Tom Perrotta, New York Times bestselling author of *The Leftovers*. From the #1 New York Times bestselling author of *Beautiful Ruins* and in the propulsive spirit of Charles Portis' *True Grit* comes a hilarious, empathetic and brilliantly provocative adventure through life in modern America about a reclusive journalist forced back into the world to rescue his kidnapped grandchildren. Rhys Kinnick has gone off the grid. At Thanksgiving a few years back, a fed-up Rhys punched his conspiracy theorist son-in-law in the mouth, chucked his smartphone out a car window and fled for a cabin in the woods with no one around except a pack of hungry raccoons. Now Kinnick's old life is about to land right back on his crumbling doorstep. Can this failed husband and father, a man with no internet and a car that barely runs, reemerge into a broken world to track down his missing daughter and save his sweet, precocious grandchildren from the members of a dangerous militia? With the help of his caustic ex-girlfriend, a bipolar retired detective and his only friend who happens to be furious with him, Kinnick heads off on a wild journey through cultural lunacy and the rubble of a life he thought he'd left behind. *So Far Gone* is a rollicking, razor-sharp and moving road trip through a fractured nation from a writer who has been called a genius of the modern American moment. Philadelphia Inquirer *I Love My Computer Because My Friends Live in It* Jess Kimball Leslie, 2017-04-25 Get off your phone and read Jess Kimball Leslie's funny book. Andy Cohen, host of Bravo's *Watch What Happens Live*. *I Love My Computer Because My Friends Live in It* is a hilarious memoir of growing up in the early days of the Internet and celebrating technology's role in our lives. Coming of age in suburban Connecticut in the late 80s and early 90s, Jess Kimball Leslie looked to the nascent Internet to find the tribes she couldn't find IRL: fellow Bette Midler fans, women who seemed impossibly sure of their sexuality, interns trudging through similarly soul-crushing media jobs. Through effortlessly comedic storytelling and looks at tech through the ages with photos, Jess takes you on a journey through the hilarious times that technology and the Internet changed her life. From accounts of the lawless chat rooms of early AOL to the perpetual high school reunions that are modern-day Facebook and Instagram, Jess's essays paint a clear picture that each of us has a much more twisted, meaningful, emotional relationship with the online world than we realize or let on.
