

Oregon Students, Oregon Stories, Oregon Success

Selecting candidates for the Career Journeys project involves several key considerations. We've worked to find candidates across the state who have had vastly different experiences – both in their respective upbringing, educational experience and professional development.

Put simply, we want students and educators from every region of the state to feel like the work is relevant and meaningful.

We've found candidates from all 17 of the state's community college regions. And we've selected careers to profile informed by the thousands of students who have used YouScience in our middle and high schools...matching student results with current high wage and high demand careers.

When viewing the Career Journeys series, watch (and listen) for examples of each of the 16 Career Clusters, listed below:
