**If Einstein Ran the Schools** Thomas Armstrong Ph.D., 2019-10-11 Many world class thinkers and creators have been concerned about the state of education in the United States Discover their thoughts on how children really learn and what teachers must do to optimally tap children s latent abilities During the last three decades education reformers have pushed standardized testing and policies like No Child Left Behind and Common Core to improve test scores and proficiency in basic skills However during this period that author Thomas Armstrong calls the miseducation of America a number of troubling trends have surfaced including a decrease in creative thinking scores among children in kindergarten through third grade Rather than focus on what s wrong with the education system that has produced these outcomes Armstrong lays out what creative thinkers know about how children should be educated In an extended thought experiment he asks what would happen if we turned the reins of educational policy over not to the politicians and educational bureaucrats but to eminent thinkers and creators like Albert Einstein Pablo Picasso Martin Luther King Jr Rachel Carson Doris Lessing Jane Goodall and other seminal culture builders What might they say about the best way to educate a child If Einstein Ran the Schools suggests that the answers to this intriguing question should guide future efforts to reform our nation s schools

**The Schenley Experiment** Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a

largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace s reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America s oldest public schools      **Handbook of Academic Integrity**

Sarah Elaine Eaton,2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions      *ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies* Dr Martin Rich,Dr Anne Brown,2014-06-16      **International Conference on Education and Management Science (ICEMS2014)** ,2014-09-24

**Discipleship for Every Stage of Life** Chris A. Kiesling, 2024-06-18 The field of life span development

in psychology has much to offer those engaged in making disciples and Chris Kiesling brings those insights to bear in this volume. He appropriates the most useful observations from this discipline in light of biblical teaching. Drawing on more than twenty-five years of experience teaching faith development topics in academic and local church settings, Kiesling assembles a toolkit that will help those in ministry think comprehensively about discipleship at every stage of life. Taking into account physical, cognitive, emotional, and social aspects of human development from infancy through older adulthood, Kiesling guides readers in making practical use of these insights in churches and educational settings. Pastors, ministry leaders, and educators will benefit from this treatment, which brings cutting-edge findings from the social sciences into dialogue with Scripture, theology, and practical ministry.

The New Education Cathy N. Davidson, 2017-09-05. A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change. Our current system of higher education dates to the period from 1865 to 1925. It was in those decades that the nation's new universities created grades and departments, majors and minors, all in an attempt to prepare young people for a world transformed by the telegraph and the Model T. As Cathy N. Davidson argues in *The New Education*, this approach to education is wholly unsuited to the era of the gig economy. From the Ivy League to community colleges, she introduces us to innovators who are remaking college for our own time by emphasizing student-centered learning that values creativity in the face of change. Above all, *The New Education* ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come.

**Celebrating Life Customs around the World** Victoria R. Williams, 2016-11-21. This book documents hundreds of customs and traditions practiced in countries outside of the United States, showcasing the diversity of birth, coming of age, and death celebrations worldwide. From the beginning of our lives to the end, all of humanity celebrates life's milestones through traditions and unique customs. In the United States, we have specific events like baby showers, rites of passage such as Bat and Bar Mitzvahs, and sweet 16 birthday parties, and sober end-of-life traditions like obituaries and funeral services that honor those who have died. But what kinds of customs and traditions are practiced in other countries? How do people in other cultures welcome babies, prepare to enter into adulthood, and commemorate the end of the lives of loved ones? This three-volume encyclopedia covers more than 300 birth, life, and death customs, with the book's content organized chronologically by life stage. Volume 1 focuses on birth and childhood customs; Volume 2 documents adolescent and early adulthood customs; and Volume 3 looks at aging and death customs. The entries in the first volume examine pre-birth traditions such as baby showers and other gift-giving events, and post-birth customs such as naming ceremonies, child-rearing practices, and traditions performed to ward off evil or promote good health. The second volume contains information about rites of passage as children become adults, including indigenous initiations, marriage customs, and religious ceremonies. The final volume concludes with coverage on customs associated with aging and death, such as retirement celebrations, elaborate funeral processions, and the creation of fantasy coffins. The set features beautiful color inserts that illustrate examples of

celebrations and ceremonies and includes an appendix of excerpts from primary documents that include legislation on government accepted names wedding vows and maternity paternity leave regulations     The End of the Innocence  
Lawrence R. Samuel, 2007-10-01 From April 1964 to October 1965 some 52 million people from around the world flocked to the New York World's Fair an experience that lives on in the memory of many individuals and in America's collective consciousness Taking a perceptive look back at the last of the great world's fairs Samuel offers a vivid portrait of this seminal event and of the cultural climate that surrounded it He also counters critics assessments of the fair as the ugly duckling of global expositions Opening five months after President Kennedy's assassination the fair allowed millions to celebrate international fellowship while the conflict in Vietnam came to a boil This event was perhaps the last time so many from so far could gather to praise harmony while ignoring cruel realities on such a gargantuan scale This world's fair glorified the postwar American dream of limitless optimism even as a counterculture of sex drugs and rock n roll came into being It could rightly be called the last gasp of that dream The End of the Innocence Samuel's work charts the fair from inception in 1959 to demolition in 1966 and provides a broad overview of the social and cultural dynamics that led to the birth of the event It also traces thematic aspects of the fair with its focus on science technology and the world of the future Accessible entertaining and informative the book is richly illustrated with contemporary photographs
