Who Owns the Media? Benjamin M. Compaine, Douglas Gomery, 2000-07-13 This thorough update to Benjamin Compaine s original 1979 benchmark and 1982 revisit of media ownership tackles the question of media ownership providing a detailed examination of the current state of the media industry Retaining the wealth of data of the earlier volumes Compaine and his co author Douglas Gomery chronicle the myriad changes in the media industry and the factors contributing to these changes They also examine how the media industry is being reshaped by technological forces in all segments as well as by social and cultural reactions to these forces This third edition of *Who Owns the Media* has been reorganized and expanded reflecting the evolution of the media industry structure Looking beyond conventional wisdom and expectations Compaine and Gomery examine the characteristics of competition in the media marketplace present alternative positions on

the meanings of concentration and ultimately urge readers to draw their own conclusions on an issue that is neither black nor white Appropriate for media practitioners and sociologists historians and economists studying mass media this volume can also be used for advanced courses in broadcasting journalism mass communication telecommunications and media education As a new benchmark for the current state of media ownership it is invaluable to anyone needing to understand who controls the media and thus the information and entertainment messages received by media consumers **Monthly Labor Review** ,1990-07 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews Economic Analysis of the Arbitrator's Function Bruno Guandalini,2020-06-16 Economic Analysis of the Arbitrator s Function Bruno Guandalini Arbitration has become an important market where arbitrators are rational economic agents maximizing their utility Although this is self evident it is rarely discussed This penetrating book is the first to comprehensively analyze the market for arbitrators and arbitrators economic role within it In great depth the author tackles such salient issues as the following effect of perceived inefficiencies and high costs on arbitration legitimacy alleged commercialization of the arbitrator s function possible ethical problem raised by financial remuneration for rendering justice what motivates a person to arbitrate market for arbitrators functioning and failures providing a better understanding of how actors could behave in such a specific market structural and artificial entry barriers effect of an arbitrator s strategic behavior on the arbitrator s function limitations on an arbitrator s rationality and preventing and correcting these limitations Numerous references to customs and procedures in major arbitral jurisdictions and to international laws and conventions affecting the efficiency of the arbitrator s function are included Pursuing a non prescriptive analysis the author draws on the discipline of law and economics rational choice theory behavioral economics and psychological work on bounded rationality Understanding the arbitrator s function as a legal institution that is influenced by the market this pioneer in developing and systematizing the study of the market for arbitrators and how it works will prove of inestimable value to all stakeholders in the arbitration market Arbitrators policymakers regulators and academics will be enabled to open the way to a more efficient market for arbitrators and betterment in arbitration worldwide *Handbook of the Economics of Finance* George M. Constantinides,M. Harris,Rene M. Stulz,2003-11-04 Volume 1A covers corporate finance how businesses allocate capital the capital budgeting decision and how they obtain capital the financing decision Though managers play no independent role in the work of Miller and Modigliani major contributions in finance since then have shown that managers maximize their own objectives To understand the firm s decisions it is therefore necessary to understand the forces that lead managers to maximize the wealth of shareholders Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1978 **Economic Freedom and the American Dream** J. Shaanan,2010-01-04 Shaanan challenges the conventional view that unrestricted economic freedom enhances our economic and political well being He demonstrates that unrestricted economic freedom provides benefits but also inflicts a heavy toll on democracy free markets and paradoxically

economic freedom itself Technological Change and the Environment Arnulf Grübler, 2010-09-30 Much is written in the popular literature about the current pace of technological change But do we have enough scientific knowledge about the sources and management of innovation to properly inform policymaking in technology dependent domains such as energy and the environment While it is agreed that technological change does not fall from heaven like autumn leaves the theory data and models are deficient The specific mechanisms that govern the rate and direction of inventive activity the drivers and scope for incremental improvements that occur during technology diffusion and the spillover effects that cross fertilize technological innovations remain poorly understood In a work that will interest serious readers of history policy and economics the editors and their distinguished contributors offer a unique single volume overview of the theoretical and empirical work on technological change Beginning with a survey of existing research they provide analysis and case studies in contexts such as medicine agriculture and power generation paying particular attention to what technological change means for efficiency productivity and reduced environmental impacts The book includes a historical analysis of technological change an examination of the overall direction of technological change and general theories about the sources of change The contributors empirically test hypotheses of induced innovation and theories of institutional innovation They propose ways to model induced technological change and evaluate its impact and they consider issues such as uncertainty in technology returns technology crossover effects and clustering A copublication of Resources for the Future RFF and the International Institute for Applied Systems Analysis IIASA
