

Given our project in English, I chose the Ronald McDonald House Charities. I thought to myself, now is my chance to help in the advancement of the lives of the less fortunate. While most of my classmates made PowerPoint presentations, I used my creativeness to make an entertaining hip-hop music video. I gathered all the information I needed, wrote the music and lyrics of the song and recorded it. My teacher was very much impressed with what I did that she showed the video to the other English classes. Because of the wide acclaim of the video in school, my teacher and I decided to collect pop tabs for the Ronald McDonald House Charities. In a school pep rally, my teacher asked me to perform my song to help promote the pop tab collection. The response was overwhelming because we got the support not only of the students and teachers but the parents and church members as well. After only two months of the project, we were able to fill up four pickle jars with pop tabs. The Ronald McDonald House Charities was so grateful for what we did.

This experience has made me a better person. It is not so much the recognition that I gained from the project but rather it was the feeling that I was able to help and even provided a venue for other people to also share their blessings to the less fortunate. The experience not only affected me but also the whole school and their families. I was able to create awareness among the other students who may know of the charitable foundation but did not really know how to help. I realized that sharing my talents and blessings with the underprivileged people is something that goes beyond just the mere act of giving. It gave me a sense of fulfillment. It was very satisfying knowing that in my own little way, I was able to make a difference.

Leuchtenburg,2005-10-01 Perhaps not southerners in the usual sense Franklin D Roosevelt Harry S Truman and Lyndon B

Johnson each demonstrated a political style and philosophy that helped them influence the South and unite the country in ways that few other presidents have. Combining vivid biography and political insight, William E. Leuchtenburg offers an engaging account of relations between these three presidents and the South while also tracing how the region came to embrace a national perspective without losing its distinctive sense of place. According to Leuchtenburg, each man had one foot below the Mason-Dixon Line and one foot above it. Roosevelt, a New Yorker, spent much of the last twenty-five years of his life in Warm Springs, Georgia, where he built a Little White House. Truman, a Missourian, grew up in a pro-Confederate town but one that also looked West because of its history as the entrepôt for the Oregon Trail. Johnson, who hailed from the former Confederate state of Texas, was a westerner as much as a southerner. Their intimate associations with the South gave these three presidents an empathy toward and acceptance in the region. In urging southerners to jettison outworn folkways, Roosevelt could speak as a neighbor and adopted son; Truman as a border-stater who had been taught to revere the Lost Cause; and Johnson as a native who had been scorned by Yankees. Leuchtenburg explores in fascinating detail how their unique attachment to place helped them to adopt shifting identities which proved useful in healing rifts between North and South in altering behavior in regard to race and in fostering southern economic growth. *The White House Looks South* is the monumental work of a master historian. At a time when race, class, and gender dominate historical writing, Leuchtenburg argues that place is no less significant. In a period when America is said to be homogenized, he shows that sectional distinctions persist. And in an era when political history is devalued, he demonstrates that government can profoundly affect people's lives and that presidents can be change-makers. **The Shape of Texas** Richard V. Francaviglia, 1995 Texas shaped ashtrays belt buckles earrings kitchen utensils Texas kitsch fill gift shops alongside highways and in airports The Lone Star State's unmistakable shape is appropriated by advertisers to hawk everything from beans to automobiles inside Texas borders and beyond As a billboard sized neon sign glowing atop a popular honkey tonk the Texas map illuminates the Fort Worth night sky attracting tourists in search of a good time and a share of the Texas experience Over the years America's most recognizable state outline has become one of its most potent symbols a metaphor for Texas popular culture In the last decade the private commercial and official use of the Texas map as cultural symbol has boomed Richard V Francaviglia identifies this current trend as Tex map mania and contends that the Texas map as icon integrates geography with history and gives shape to a mythic landscape and to abstracted notions of what Texas is and who Texans are Written in a lively style that engages both the scholar and the general reader in a discussion of the power of symbol and the meaning and significance of a shared aesthetic The Shape of Texas is at the crossroads of cartography and popular culture Francaviglia uses more than one hundred illustrations in offering a provocative visual and written account of this important yet much neglected aspect of Texas history and the dynamics of a still emerging Texas identity
