Textbook Distortion Bias And Indoctrination In College Texts:

Textbook Distortion Mark Hodges, 2014-10-29 Ten chapters of examples of historical revision with an atheist bias and sixteen more examples of direct attacks on a theistic worldview or Christianity found in college textbooks plus a short list basic defense of the Scriptures and a look at some common myths used to support the atheist world view A compilation of Textbook Propaganda and Textbook Folly with material from the Ten Myths of Modern Academia series *The Pretribulation Rapture Theory and Dispensationalism Revisited* J. Mike Byrd, 2014-08-15 The Pretribulation Rapture Theory and Dispensationalism Revisited reviews and critiques a confusing array of popular theories that address the return of Jesus Christ and the church's rapture It proposes that a clarifying approach rests in letting Scripture interpret Scripture which yields a simpler more natural and consistent explanation of the pretribulation rapture and dispensationalism Drawing upon thousands of hours of Bible study J Mike Byrd presents an analysis and a related proposal that avoid both unthinking conformity to popular notions and oversimplification for the sake of palatability The Pretribulation Rapture Theory and Dispensationalism Revisited addresses methods of interpretation defines dispensationalism and the Dispensational Principle examines the scriptural testimony surrounding the day of the Lord and the day of God's wrath surveys the issues regarding imminence and discusses the rapture the resurrection and Christ's second coming If you wonder what Scripture clearly teaches about the this world's demise the end of human existence and the onset of God's sure and certain work to establish his reign then The Pretribulation Rapture Theory and Dispensationalism Revisited should offer you the scripturally grounded review analysis and explanation you need to understand the Scriptures teachings on these ultimate issues **Textbook Folly** Mark Hodges, 2017-12-03 Author explores his college textbooks and examines them for honesty or bias education or indoctrination Aware of the movement in Russia and China to remove all theism out of the school system and replace it with the teachings of atheism and Darwinism and what they called propaganda he examines American textbooks to see if some of the same biases can be found in our textbooks Are our colleges teaching from an innocuous and neutral ideology Or is there a bias Are we being indoctrinated or educated and does anybody care In book one the author deals with two different books one a second year logic text and the other a first year philosophy book More to come *Logic and Contemporary Rhetoric* Howard Kahane, 1992 Aims to challenge students to think for themselves by providing coverage of some common fallacies used in advertising the mass media textbooks by public officials and in everyday conversation This book should be of interest to students of critical thinking and informal logic courses **Battleground States** Michael Mooradian Lupro, Stephen Swanson, 2009-10-02 Stemming from an interdisciplinary conference sponsored by Culture Club The Cultural Studies Scholars Association that included scholars from various disciplines and from around the world this volume collects the work of graduate students and junior faculty which all examine the meaning of cultural scholarship in an ever changing and increasingly global milieu These voices which often become marginalized and go unheard represent what we see as the

futures of interdisciplinary academic work in the humanities The conference and this book are opportunities for scholars of diverse backgrounds and disciplines to come together and engage in a real dialogue with one another Bringing disparate thoughts on politics film television history policy and literature together counters the pressures pushing individuals to take political religious scholarly and ideological sides Through the efforts represented here we gain a distanced yet engaged view on the many threads that bind us together and the forces that seek to separate us Looking at this volume the reader encounters many different approaches from critical analysis of individual texts to autoethnography The contributors and compilers of this book do not place these in separate sections or in any hierarchy but rather wish that all of these appear on an equally vital level that displays the ways in which each of the subjects and approaches might open up a piece of culture in a way that draws attention to the connections between them all

An Insider's View of Sexual Science since Kinsey Ira L. Reiss,2006-03-27 In a personal nontechnical and informal style eminent researcher Ira L Reiss discusses the many situations he has encountered during the past fifty years while researching sexuality and developing useful and innovative explanations of its different aspects Most of the problems that were present during those years are still confronting those who work on human sexuality Reiss discusses his experiences in sexual science in areas such as premarital sex the sexual revolution Masters and Johnson s therapy feminism and sexuality crises in sexual organizations responses to HIV AIDS child and adolescent sexuality radical social constructionism biology versus sexual science international trends and the movement toward a Ph D in sexual science The insights and solutions Reiss proposes are of great importance to all those who are interested in the sexual issues that affect people today

The New York Times Book Review ,1972 Terms of Respect Christopher L. Eisgruber,2025-09-30 In this forcefully persuasive book Joyce Carol Oates the president of Princeton reveals how colleges are getting free speech on campuses right and how they can do better to nurture civil discourse and foster mutual respect Conversations about higher education teem with accusations that American colleges and universities are betraying free speech indoctrinating students with left wing dogma and censoring civil discussions But these complaints are badly misguided In *Terms of Respect* constitutional scholar and Princeton University president Christopher L Eisgruber argues that colleges and universities are largely getting free speech right Today s students engage in vigorous discussions on sensitive topics and embrace both the opportunity to learn and the right to protest Like past generations they value free speech but like all of us they sometimes misunderstand what it requires Ultimately the polarization and turmoil visible on many campuses reflect an American civic crisis that affects universities along with the rest of society But colleges Eisgruber argues can help to promote civil discussion in this raucous angry world and they can show us how to embrace free speech without sacrificing ideals of equality diversity and respect Urgent and original *Terms of Respect* is an ardent defense of our universities and a hopeful vision for navigating the challenges that free speech provokes for us all
