Wced Past Papers Grade 12 2011:

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

The Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-05 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

Governance and Sustainability David Crowther, Shahla Seifi, 2020-10-21 An analysis of the issues raised concerning both sustainability and governance and an investigation of approaches taken to dealing with these issues The research has been developed by experts from around the world who each look at different issues in different contexts

Facets of India's Security P.R.

Kumaraswamy, 2021-08-26 This volume brings together established and emerging scholars from academia and think tanks to reflect on important conceptual strategic and developmental issues in India's national security. It provides a comprehensive understanding of national security through a more open approach covering both traditional and non traditional concerns that have a bearing on the survival and well being of humanity. It discusses key themes such as perceptions about China, civil military relations, gender and military, nuclear safety, arms trade and cybersecurity, human security, food and water security, soft power and the media's role in covering security issues. As a festschrift for Commodore C Uday Bhaskar, it highlights and adds to his scholarly contributions to the national security debate in the country for the past three decades. A unique contribution, this volume will be indispensable for students and researchers of politics and international relations, national security, human security, geopolitics, non traditional security, military and strategic studies and South Asian studies.
