Vao 2014 Guide In File:

Guardians of the Brazilian Amazon Rainforest: Environmental Organizations and Development Luiz C. Barbosa, 2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro industrial development This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia It reveals how environmental organizations such as Greenpeace Friends of the Earth WWF and others have fought fiercely to stop deforestation in the region It documents how the history of frontier expansion and environmental struggle in the region is linked to Brazil's position in an evolving capitalist world economy It is shown how Brazil's effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia The author analyses how globalization has led to the expansion of international commodity chains in the region particularly for mineral ores soybeans and beef He shows how environmental organizations have politicized these commodity chains as weapons of conservation through boycotting certain products while other pro development groups within Brazil claim that such organizations threaten Brazil's sovereignty over its own resources

Textiles, Identity and Innovation: Design the Future Gianni Montagna, Cristina Carvalho, 2018-10-03 D_TEX presents itself as a starting point at a crossroads of ideas and debates around the complex universe of Textile Design in all its forms manifestations and dimensions The textile universe allied to mankind since its beginnings is increasingly far from being an area of exhausted possibilities each moment proposing important innovations that need a presentation discussion and maturation space that is comprehensive and above all inter and transdisciplinary Presently the disciplinary areas where the textile area is present are increasing and important such as fashion home textiles technical clothing and accessories but also construction and health among others and can provide new possibilities and different disciplinary areas and allowing the production of new knowledge D_TEX proposes to join the thinking of design with technologies tradition techniques and related areas in a single space where ideas are combined with the technique and with the projectual and research capacity thus providing for the creation of concepts opinions associations of ideas links and connections that allow the conception of ideas products and services The interdisciplinary nature of design is a reality that fully reaches the textile material in its essence and its practical application through the synergy and contamination by the different interventions that make up the multidisciplinary teams of research The generic theme of D_TEX Textile Design Conference 2017 held at Lisbon School of Architecture of the University of Lisbon Portugal on November 2 4 2017 is Design the Future starting from the crossroads of ideas and debates a new starting point for the exploration of textile materials their identities and innovations in all their dimensions

Challenges for Technology Innovation: An Agenda for the Future Fernando da Silva, Helena Maria Bártolo, Paulo Bártolo, Rita Almendra, Filipa Roseta, Henrique Amorim Almeida, Ana Cristina Lemos, 2017-04-21 The world is undergoing a profound transformation driven by radical technological changes and an accelerated globalisation process A

new culture of greater resource efficiency and disruptive innovation will require new technologies processes and materials fostering new knowledge innovation education and a digital society bringing forward new business opportunities and novel solutions to major societal challenges Challenges for Technology Innovation an Agenda for the Future is the result of the 1st International Conference on Sustainable Smart Manufacturing S2M held at the Faculty of Architecture in Lisbon Portugal on October 20 22 2016 It contains innovative contributions in the field of Sustainable Smart Manufacturing and related topics making a significant contribution to further development of these fields This volume covers a wide range of topics including Design and Digital Manufacturing Design Education Eco Design and Innovation Future Cities Medicine 4 0 Smart Manufacturing Sustainable Business Models Sustainable Construction Sustainable Design and Technology and Sustainable Recycling

Democracy, Environment, and Technology Elias G. Carayannis, Vasilii Erokhin, 2025-09-26 The 21st century is witnessing an unprecedented convergence of transformative technologies that promise to reshape global energy systems governance and societal well being Among these Public Interest Technology PIT Artificial Intelligence AI and Fusion Energy stand out as critical domains with the potential to drive sustainable development economic growth and equitable progress This book explores the concepts of PIT AI and Fusion in ten chapters It begins by tracing the evolution of PIT emphasizing its role in addressing global challenges through socio technical frameworks Key themes include the ethical and practical challenges of PIT such as data privacy algorithmic bias and funding barriers as well as its potential to drive equitable solutions The importance of stakeholder inclusion particularly from the Global South and frameworks to manage uncertainties in technology investments are highlighted Case studies illustrate successful PIT implementations such as AI driven sustainability projects and fusion energy initiatives while underscoring the need for interdisciplinary collaboration and adaptive governance The later chapters focus on fusion energy as a PIT advocating for open science international cooperation and flexible investment strategies to overcome technical and financial hurdles In these chapters ideas that fusion energy if developed inclusively could revolutionize global energy systems and combat climate change are discussed and governance models such as international commissions and public private partnerships to ensure equitable access and ethical development are proposed Similarly discussions on AI stress its dual potential to either exacerbate inequality or democratize opportunities depending on policy and implementation

21st Century Skills for Non-Profit Managers Don Macdonald, 2017-10-26 Over the last 30 years nonprofit organizations have grown massively in capacity scope and authority across the world With growing demand for services there are numerous opportunities for nonprofits to respond innovatively and sustainably Any experienced nonprofit manager knows the role is sometimes frustrating but always exhilarating working with people and empowering them Severe funding cuts make this more testing but new prospects are appearing If you are new to management or the sector you need a book describing good practice to inform and guide you Managing a small nonprofit requires you to multitask manage your time and prioritize tasks while taking on extra responsibilities you need new

skills such as fundraising all covered in this book This book covers essential aspects staffing communications charity governance donations corporate social responsibility crowdfunding With useful case studies resources and links it avoids jargon and intellectualizing Topics include effective business planning empowering staff and clients writing successful fundraising applications and preparing government tenders for the U S and UK Don used his experience as a nonprofit manager volunteer staffer fundraiser community fund overseer trustee and consultant to make the book relevant topical and helpful The Evolution of Geotech - 25 Years of Innovation Reginald Hammah,Thamer Yacoub,Alison McQuillan,John Curran,2021-11-23 This publication includes 82 technical papers presented at Rocscience International Conference RIC 2021 held online on April 20 and 21 2021 Rocscience created this event to bring geotechnical academics researchers and practitioners together to exchange ideas as part of celebrating 25 years of the company s existence The papers in these proceedings were from keynotes panel discussions and papers selected after careful review of over 100 technical submissions delivered at RIC 2021 The technical papers were grouped into sessions based on their subject areas The conference aimed to stimulate discussions that could help the industry work towards overcoming geotechnical engineering limitations today It also sought to foster creative thinking that will advance the current states of the art and practice The keynote addresses panel discussions and technical presentations tried to examine geotechnical problems and situations from fresh perspectives RIC 2021 hopes that the proceedings will continue to enrich our thinking and contribute to achieving a critical mass of change in our practices and approaches We look forward to significant improvements in our industry

analítico e alicerçada em ampla pesquisa doutrinária e empírica os setenta e cinco artigos da Lei de Drogas Lei nº 11.343 de 23 de agosto de 2006. A perspectiva da liberdade adotada pelo autor afasta os lugares comuns sobre o universo das drogas. Refuta-se o paradigma repressivo e propõe-se a adoção de uma abordagem interdisciplinar baseada em evidências científicas e capaz de assegurar a defesa dos direitos humanos e a redução de danos para os usuários. Dessa forma, além de humanizar a discussão em torno do uso problemático de drogas, serve ainda como uma poderosa ferramenta aos operadores de Direito para fortalecer o direito de defesa. Trata-se portanto de um livro que tem pelo lado da liberdade o lado da advocacia e da Defensoria Pública em oposição ao poder punitivo do Estado, o lado da magistratura corajosa que aplica a Constituição o lado das incontáveis vítimas da guerra às drogas. Em suma, nas contundentes palavras do próprio autor, este não é um livro neutro. Seu propósito é reduzir os danos que a ideologia bélica da "war on drugs" produz na interpretação da Lei de Drogas, um anti-manual de guerrilha jurídica em favor de pessoas acusadas por crimes previstos na Lei de Drogas. Um analgésico para tratar a dor causada pela fúria repressiva do Direito Penal em relação às drogas enquanto a legalização não chega.

LEI MARIA DA PENHA Josanne Cristina Ribeiro Ferreira Façanha, 2023-09-26 Este livro aborda a interseção entre a violência doméstica e o papel do sistema judicial na proteção dos direitos e na garantia da segurança das vítimas. Discute-se a prevalência e as nuances da violência doméstica, ressaltando que esta não é apenas física, mas também psicológica, emocional, sexual e econômica. A análise aborda os desafios enfrentados pelas vítimas ao buscarem justiça, muitas vezes agravados por estigmas sociais e sistemas jurídicos insuficientemente equipados para lidar com a complexidade desses casos. Examina-se a legislação atual, como a Lei Maria da Penha no Brasil, e sua implementação, apontando falhas e áreas para aprimoramento. Aprofundando-se no papel do Judiciário, o livro explora como ele pode atuar tanto como protetor dos direitos das vítimas quanto como potencial obstáculo para a justiça. Discute-se como a sensibilização e a formação e as políticas internas do Judiciário podem influenciar o resultado dos casos de violência doméstica.

Medicina do Sono Tavares, Almir, Zancanella, Edilson, Genta, Pedro R., Poyares, Dalva, 2022-09-21 Neste livro, chancelado pela Associação Brasileira de Psiquiatria, os doutores Almir Tavares, Edilson Zancanella, Pedro R. Genta e Dalva Poyares reúnem destacados profissionais brasileiros que se dedicam clinicamente e pesquisa na área do sono: psiquiatras, cardiologistas, fisioterapeutas, neurologistas, otorrinolaringologistas, pneumologistas, entre outros, para trazer ao leitor informações atualizadas e baseadas em evidências, sempre com a preocupação de integrar os conhecimentos teóricos com a prática clínica. Também disponível no formato de e-book, este livro aborda temas como sono normal e privação de sono, transtornos do sono, como insônia, parassonias, distúrbios respiratórios do sono, entre outros, métodos diagnósticos na área, como polissonografia e actigrafia, sono em mulheres e no envelhecimento, bem como os tratamentos disponíveis.

Violência doméstica e a Teoria da Ação Comunicativa Ariane Simioni, 2022-06-28 Violência doméstica e a Teoria da Ação Comunicativa: uma via possível para Brasil e Portugal. Tem um vislumbre não convencional de abordagem da violência doméstica em ambos os países. A partir de um aprofundado mergulho da temática no contexto do constitucionalismo contemporâneo, realiza-se um estudo comparado acerca dos

mecanismos jurídico institucionais de proteção da mulher no Brasil e em Portugal. Analisam-se dados recentes sobre essa violência nos países e apresentam-se propostas de soluções dialogicamente construídas. A abordagem histórico-constitucional usada, uma diferenciadora se comparada às demais pesquisas existentes no mercado editorial ou acadêmico. Outro ponto de destaque: a fundamentação teórica a partir da teoria da ação comunicativa de Jürgen Habermas. Não se trata de uma perspectiva discursiva prática comunicativa, assume singular adequação frente à temática central. Logo, trata-se de um universo imerso em uma construção dialética entre os agentes racionais. Torna-se cada vez mais importante compreender a dinâmica das relações sociais que engendra processos discriminatórios repressivos e mesmo criminosos contra mulheres, em especial contra as imigrantes. Assim, a obra possui relevância para os pesquisadores, professores e estudantes de Teoria do Estado, Teoria da Democracia, Direito Internacional e Direito Constitucional, podendo ser aplicada tanto na graduação como na pós-graduação em Direito e áreas afins.

Má Terapia Abigail Shrier, 2025-02-25. Jovimos histórias de cirurgias que correram mal ou de diagnósticos errados. Muitos desses casos devem-se a erros médicos e podem ser fatais. Sabemos disso e temos mecanismos para nos defendermos. Mas quem nos protege de um mau terapeuta? Mais importante ainda: quem protege os nossos filhos? Nunca houve tantos problemas de saúde mental entre as crianças e adolescentes como agora. As receitas de antidepressivos dispararam e os comportamentos de automutilação multiplicam-se ao mesmo tempo que se multiplicam as consultas com psicólogos e psiquiatras. Como explicar esta gritante contradição? Abigail Shrier, uma premiada jornalista, investigou o fenómeno e apresenta os factos em *Má Terapia*. Analisou números e estatísticas de saúde pública, falou com centenas de médicos, professores, pais e filhos. Concluiu que a indústria da saúde mental criou uma subcultura própria, especializada em rotular as crianças desde a infância. Não só os sintomas sofrem antes de transtorno de ansiedade social, não só os malcomportados mas padecem de perturbações de oposição e desafio. Comportamentos antes considerados normais nas crianças e adolescentes transformaram-se em doenças diagnosticáveis, o que leva a que pais e professores evitem a todo o custo traumatizar os jovens. Eles crescem presos aos telemóveis, isso sim permitido, mas sem disciplina, sem ambiente com medo de arriscar. Tirar a carta de condução, por exemplo, hoje assustador. Os cuidados de saúde mental ressaltam a autora: são absolutamente essenciais para casos graves. Mas quando se trata de simples frustração, tristeza, desapontamento ou solidão, a melhor maneira de ajudar os nossos filhos liberta-los da redoma onde não só com a ajuda da indústria farmacêutica os prendemos. Para que enfim possam crescer livres, maduros e autossuficientes.

Pesquisas em Assentamentos do MST em Santa Catarina: Desafios na Produção de Conhecimento de Professores Militantes Camila Munarini, Edilaine Aparecida Vieira, Elodir Lourenço de Souza, Fabiana Fatima Cherobin, Francieli Fabris, Raquel Forchesatto, Roseli Borowicz, 2021-04-16. Pesquisas em assentamentos do MST em Santa Catarina: desafios na produção de conhecimento de professores militantes. Resultado de inquéritos realizados entre pesquisadoras e pesquisadores das áreas de assentamento do MST no Estado de Santa Catarina. As pesquisas que se traduziram nos capítulos deste livro fazem parte de estudos desenvolvidos em programas de pós-graduação, mestrados e

doutorados em diversas universidades públicas. Cada autora e autor buscou sistematizar sua trajetória de pesquisa, sua relação com os objetos de estudos, bem como as vivências experimentadas nessas áreas. Pensar a produção de conhecimento na atualidade se apresenta como um desafio principalmente quando se busca dialogar sobre a realidade de sujeitos que historicamente foram silenciados. Por isso, a experiência de elaboração e publicação deste livro apresenta-se como um marco fundamental para pesquisas e estudos sobre processos educacionais que vêm sendo desenvolvidos no MST no Estado de Santa Catarina. A diversidade de trabalhos publicados neste livro indica um panorama amplo dos avanços e conquistas que foram sendo realizados por meio da luta e da organização das famílias e do MST. O estudo e a pesquisa alim de uma necessidade para a quebra de paradigmas e estereótipos construídos sobre os Movimentos Sociais, em especial o MST, apresentam-se como um campo de luta de reconhecimento e de resistência tanto para Educação do Campo quanto para a educação pública laica e gratuita.
