

Unhelpful thinking styles

Predictions

I make negative predictions about what might happen in the future even though I have no way of knowing this.

Judgements

I make judgements about things even though there is no evidence or facts to back this up.

Catastrophising

I always think of the worst case scenario or think that something really bad is going to happen.

Perfectionist

I put a lot of pressure on myself to do well and set unrealistically high expectations for myself. I think everything has to be exactly right.

Negative glasses

When I have my negative glasses on, I only see the bad things that happen and I don't notice any of the good things.

Feelings

If I notice negative feelings in myself or my body and automatically think that it means something bad is happening or will happen.

Mental filter

I tend to take more notice of the negative things in a situation and down play the positive things.

Memories

Some things trigger my negative memories which makes me think something bad will happen again now.

Black & white thoughts

I usually think things are either really good or really bad and there is no in between.

Mind reading

I assume I know what other people are thinking and this is usually negative things about me.

Compare & despair

I notice positive things about other people but then compare myself negatively to them and think others are better than me.

Self-critical

I am very critical of myself and my abilities.

Benson, Sally S. Simpson, Melissa Rorie, Jay P. Kennedy, 2024-01-22 White Collar Crime An Opportunity Perspective analyzes white collar crime using the opportunity perspective which assumes that all crimes depend on offenders recognizing an opportunity to commit an offense The authors explicate the processes and situational conditions that facilitate opportunities for white collar crimes and the likelihood of being victimized by white collar crime In addition they offer potential policy solutions that will mitigate this persistent and widespread social problem while being realistic and balanced in their treatment of the difficulties of control With this fourth edition Benson and Simpson have enlisted the aid of two young white collar crime scholars Jay P. Kennedy and Melissa Rorie who bring new areas of expertise to the book that enhance its analytical depth and coverage of both white collar crime and the opportunity perspective New up to date case studies are

included along with examinations of recent investigations into white collar crime and its control These timely updates reaffirm that this rigorous yet accessible book will remain a core resource for undergraduate and early graduate courses on white collar crime

Assessing Teacher Effectiveness Jim Campbell, Leonidas Kyriakides, Daniel Muijs, Wendy Robinson, 2012-10-12 How can we really evaluate teacher effectiveness Systems of teacher appraisal and evaluation are being created across the world in order to monitor and assess teacher performance But do the models used really give a fair evaluation Based on international research the authors argue that teacher effectiveness is too narrowly conceptualised and methods of measuring it are not attuned to the real contexts in which teachers work They propose a model of differential teacher effectiveness which takes into account that teachers may be more effective with some categories of students than with others teachers may be more effective with some teaching contexts than others teachers may be more effective with some subjects or components than with others Building on and developing previous research on models of teacher effectiveness and current theories the authors open up possible new debates which will be of interest to academics and researchers working in this area throughout the world

Perspectives on the Nature of Intellectual Styles Robert J. Sternberg, Li-Fang Zhang, 2009-05-22 provide s and in depth review of intellectual styles All the contributors provide important information Each chapter includes extensive references Summing up Recommended Choice Teachers too often assume that student performance levels are based solely on the student s intelligence effort and motivation This book takes a unique perspective arguing that the difference in students performance may be nothing more than differences in intellectual styles of learning or thinking Intellectual styles simply refer to individualized ways of processing information This stimulating and provocative text integrates the most recent theories and research on intellectual styles The internationally acclaimed contributors address cutting edge controversial issues in the field that have yet to be resolved including whether certain intellectual styles are better than others how creativity affects intellectual style and whether styles are traits or states Key Features Distinguishes intellectual styles from other constructs such as intellectual capacity or effort levels Situates the field of styles within the larger context of the psychological educational and business literatures Provides concrete guidelines for researchers teachers and employers to apply the concept of intellectual styles to educational and business settings

Researchers teachers employers psychologists and students will find this book to be a fascinating engaging read offering a breadth and depth of insight into the nature of intellectual styles
