Ernessa is a vampire. At an exclusive girls boarding school, a sixteen-year-old girl records her most intimate thoughts in a diary. The object of her growing obsession is her roommate Lucy Blake, and Lucy's friendship with their new and disturbing classmate Ernessa is an enigmatic, moody presence with pale skin and hypnotic eyes. Around her swirl dark rumors, suspicions and secrets, as well as a series of ominous disasters. As fear spreads through the school and Lucy isn't Lucy anymore, fantasy and reality mingle until what is true and what is dreamed bleed together into a waking nightmare that evokes with gothic menace the anxieties, lusts and fears of adolescence. And at the center of the diary is the question that haunts all who read it: Is Ernessa really a vampire? Or has the narrator trapped herself in the fevered world of her own imagining.

The Pedagogy of Pop Edward Janak, Denise F. Blum, 2013 Media competes with public schools in terms of student engagement and time. However, the two needn't be mutually exclusive. *The Pedagogy of Pop: Theoretical and Practical Strategies for Success* discusses a variety of strategies and approaches for using social and mass media as tools through which teachers might improve schooling. While there is a vast body of literature in this field, editors Edward A. Janak and Denise Blum have created a text which differs in two substantive ways: scope and sequence. In terms of scope, this work is unique in two facets: first, it presents both theory and practice in one

volume bridging the two worlds and second it includes lessons from secondary and postsecondary classrooms allowing teachers on all levels to learn from each other In terms of sequence The Pedagogy of Pop draws on lessons from both historical and contemporary practice The introductory section of Janak and Blum s collection presents a pair of papers that use somewhat different approaches to examine the historical roots of contemporary critique Part I presents a series of chapters designed to provide guidelines and theories through which educators on all levels can think about their practice focusing more on the why of their approach than the how Part II presents a more hands on approach by sharing a variety of specific strategies for incorporating pop culture in all its forms technology music television video games etc in both secondary and postsecondary classrooms The conclusion shows the praxis of teaching with popular culture presenting a counterpoint to current thinking as well as a case study of the best of what can happen when popular culture is applied effectively
