Borges and Translation Sergio Gabriel Waisman, 2005 This book studies how Borges constructs a theory of translation that plays a fundamental role in the development of Argentine literature and which in turn expands the potential for writers in Latin America to create new and innovative literatures through processes of re reading rewriting and mis translation The book analyzes Borges s texts in both an Argentine and a transnational context thus incorporating Borges s ideas into contemporary debates about translation and its relationship to language and aesthetics Latin American culture and identity tradition and originality and center periphery dichotomies Furthermore a central objective of this book is to show that the study of the importance of translation in Borges and of the importance of Borges for translation studies need not be separated Furthermore translation studies has much to gain by the inclusion of Latin American thinkers such as Borges while literary studies has much to gain by in depth considerations of the role of translation in Latin American literatures Sergio Waisman is an Assistant Professor of Spanish at The George Washington University

The Monthly Literary Advertiser ,1815 **Historical Dictionary of Gothic Literature** William Hughes, 2013 Literary fashions come and go but some hang around longer than others like Gothic literature which has existed ever since The Castle of Otranto in 1764 During this long while it has spread from England to the rest of Great Britain and across to the continent and off to America and Australia filling in the gaps more recently Most of it is in English but hardly all and it has adopted all styles from romanticism to modernism to postmodernism and even adjusted to feminist and queer literature and science fiction We have all read some Gothic tales or if not read then seen them in the cinema since they adapt well to film treatment and it would be hard to find anyone who has not heard of ghosts and vampires let alone Count Dracula and Frankenstein On the other hand some of us are inveterate Gothic fans reading one book or story after the other The Historical Dictionary of Gothic Literature follows this long and winding path first in an extensive chronology and then a useful introduction which explains the nature of Gothic and shows how it has evolved Obviously the dictionary section has entries on major writers and some of the best known works but also on geographical variants like Irish Scottish or Russian Gothic and Female Gothic Queer Gothic and Science Fiction This is provided in over 200 often substantial and always intriguing entries More can be found in a detailed bibliography including general works but also more specialized ones on different styles and genres and also specific authors This book should certainly interest the fans but also more serious researchers

Richard Burton, T.E. Lawrence and the Culture of Homoerotic Desire Feras Alkabani,2024-09-19 In the 19th and early 20th centuries the Arabic speaking regions of the Ottoman Empire saw a crucial change in attitudes towards sexuality. Notions of respectability propriety and sexual morality were being transformed in literary and cultural discourses a shift that was related to the gradual rise in anti Ottoman Arab nationalism. However contemporary Orientalists such as Sir Richard Burton and T E Lawrence were oblivious to certain aspects of this process of cultural reconfiguration. While accounts of male love poetry ghazal al mudhakkar were being gradually expurgated from the Arab literary heritage elaborate narratives of Oriental homoerotic desire distinctively characterise the encounters of both Burton and Lawrence with the Arab East. By comparing their literary and autobiographical accounts of the Arab Orient with contemporary Arabic literature Feras Alkabani is able to expose this critical disparity in cross cultural portrayals of sexual morality and homoerotic desire. Alkabani relates the conflicting agendas of contemporary Orientalists and Arab scholars to the shifts in international imperial power relations and the eventual collapse of the Ottoman Empire. His detailed comparative study reveals the significance of homoerotic desire within Orientalist and Arab literary discourses at a time when the meaning and connotations of poetic male love were undergoing a critical change in Arab culture and literature. It will prove invaluable for those researching Orientalism nationalism imperialism and manifestations of homoerotic desire in the fin de siècle Middle East.
