

U.S. History – Regents Review Packet**1. Colonial America (1607-1763)****Main Facts to Remember**

- The earliest colonies in North America were:
 - JAMESTOWN, Virginia – settled by businessmen from England who sought to make money by growing and selling tobacco; the area had fertile soil and Virginia grew into a powerful colony of tobacco **plantations** (large farms where slaves did most of the work).
 - MASSACHUSETTS BAY (sometimes called Plymouth) – settled by Puritans from England who were seeking religious freedom for themselves; the Puritans built towns, with small farms on the outskirts.
 - NEW AMSTERDAM – settled by Dutch traders who settled on Manhattan island; in the beginning they mainly traded furs; New Amsterdam was later taken over by the British and renamed "New York".
- Each of these colonies was built on the Atlantic Coast, close to the water (better for trade).
- The policy that the British followed toward the colonies was called **mercantilism** – this means that a "mother country" (like England) had colonies (like America) for two main reasons: 1. to get raw materials; 2. to create new markets (places to sell their products); it also meant that the colony was not allowed to compete economically with the mother country.
- The British also followed a policy of **salutary neglect** toward the American colonies – this meant that the British pretty much left the Americans alone in their day-to-day lives, as long as raw materials kept being shipped to England and as long as Americans bought only British-made products.
- Early examples of democracy in the American colonies:
 - The **Mayflower Compact**: An agreement made by the first Puritan settlers in Massachusetts – it said that they would follow the idea of self-government.
 - The **House of Burgesses**: In Virginia, this was the first elected legislature in the American colonies; it was a first step towards representative government (a government where people could elect their own representatives).
