**Design Guidelines in American Cities** John Punter,1999-01-01 This book is a study of design initiatives and policies in five US West Coast cities Seattle including Bellevue Portland San Francisco Irvine and San Diego all of which have had particularly interesting urban design experience of relevance to practice in Britain and other countries Although these cities are not a representative sample of all American design practice they provide a rich vein of ideas about recent policy development and current initiatives which will stimulate thought about the formulation of effective design controls The presentation of substantial extracts from key documents that underpin design controls in the five cities will be of interest inspiration and practical use to academics and practitioners who want to know more about American practice and who want to contribute to improvements in the standards and quality of urban design policies and design control The opening chapter provides a national context and a comparative framework for the study with a focus on international perspectives American planning systems and the development of criteria for comparison and evaluation The five subsequent chapters take each city in turn briefly reviewing the salient characteristics of each one before presenting an account of how planning and design policy have evolved in the last twenty five years key features of the contemporary systems of design control are highlighted and a summary evaluation is made The focus in the case studies is on how policy and guidance have been formulated structured and presented in the various documents that make up the policy framework how the process of control operates and how both respond to the criticisms commonly made of design and control This final chapter draws general conclusions about the experience of the studied cities of wider relevance to American design review practice but which are of interest to those engaged in design review and policy formulation everywhere

*Urban Design Guidelines* ,1988      **Urban Design Committee Design Guidelines** Richmond (Va.). Department of Community Development. Richmond Urban Design Committee,1995      **Urban Design Review** Hamid Shirvani,1981      *Urban Design* Jon Lang,1994 Urban Design the American Experience Jon Lang Urban Design The American Experience places social and environmental concerns within the context of American history It returns the focus of urban design to the creation of a better world It evaluates the efforts of designers who apply knowledge about the environment and people to the creation of livable enjoyable and even inspiring built worlds Urban Design The American Experience emphasizes that urban design must take a user oriented approach to achieve a higher quality of life in human settlements All the keys to this approach are spelled out in chapters that address Urban design as both a product and process of communal decision making Types of knowledge required as a base for urban design action How to apply recent environmental and behavioral research to professional design How human needs are fulfilled through design The true role of functionalism in design Urban design efforts of the twentieth century in the United States are examined within their socio political context Jon Lang reviews the urban design experience from the beginning of

the City Beautiful movement paying particular attention to developments since World War II He explores how the twentieth century city has developed as well as discusses the attitudes that have driven major movements in urban design Readers learn a neo Modernist approach that builds on the successes and failures of Rationalism and Empiricism the two major streams of Modernist thought in architecture and urban design They also gain an understanding of how the environment is experienced by people and the implications of this experiencing for architectural and urban design Numerous illustrations throughout demonstrate how various design schemes can be used Urban Design The American Experience provides architects designers city planners and students in these fields with a model for their own future development as professionals It is a valuable guide to design methodology procedural theory and other issues related to creating optimal urban environments
