War Games Philip Hammond, Holger Pötzsch, 2019-12-12 Many of today's most

commercially successful videogames from Call of Duty to Company of Heroes are war themed titles that play out in what are framed as authentic real world settings inspired by recent news headlines or drawn from history While such games are marketed as authentic representations of war they often provide a selective form of realism that eschews problematic yet salient aspects of war In addition changes in the way Western states wage and frame actual wars makes contemporary conflicts increasingly resemble videogames when perceived from the vantage point of Western audiences This interdisciplinary volume brings together scholars from games studies media and cultural studies politics and international relations and related fields to examine the complex relationships between military themed videogames and real world conflict and to consider how videogames might deal with history memory and conflict in alternative ways It asks What is the role of videogames in the formation and negotiation of cultural memory of past wars How do game narratives and designs position the gaming subject in relation to history war and militarism And how far do critical anti war peace games offer an alternative or challenge to mainstream commercial titles

Cult Film as a Guide to Life I.Q. Hunter, 2016-09-08 Cult Film as a Guide to Life investigates the world and experience of cult films from well loved classics to the worst movies ever made Including comprehensive studies of cult phenomena such as trash films exploitation versions cult adaptations and case studies of movies as different as Showgirls Room 237 and The Lord of the G Strings this lively provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world Using his expertise in two fields I.Q. Hunter also explores the important overlap between cult film and adaptation studies He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences emotional investment not only in texts but also in the relationships between them and how such bonds of caring are structured over time The book's emergent theme is cult film as lived experience With reference mostly to American cinema Hunter explores how cultists with their powerful emotional investment in films care for them over time and across numerous intertexts in relationships of memory nostalgia and anticipation
