The State of the European Union, 6 Tanja A. Börzel, Rachel A. Cichowski, 2005-08-04 Law Politics and Society is the sixth and latest addition to the European Union Studies Association series State of the European Union The contributors of this volume take the dynamic interaction between law politics and society as a starting point to think critically about recent developments and future innovations in European integration and EU studies The book provides an overview of key events between 2000 and 2002 in the European Union while illuminating how these institutional

formal legal developments impact ordinary individuals and EU politics For example the European Convention with the possibility of an EU constitution is viewed not only as a new institutional development but we examine what impact the creation of judicially enforceable rights has for Europeans and European integration How does the opportunity for new rights claims alter the balance of power between individuals and EU organizations such as the European Court of Justice vis vis national governments in EU policy expansion Importantly the volume also seeks to provide a unique and interdisciplinary approach to studying the European Union by bringing together both legal scholars and political scientists Chapter contributors offer readers both sophisticated theoretical and empirical accounts of these new developments Issues such as enlargement immigration reform and monetary union require not only a precise understanding of an increasingly complex set of formal legal rules the domain of legal scholars but equally important are the effects on ordinary citizens and political participation the very power struggles that concern political scientists This volume seeks to integrate these two approaches not only by including the scholarship in a single volume but by asking individual contributors to think outside their respective disciplines The division between the legal and political as many would argue is often both artificial and unproductive Our volume seeks to bridge this divide

With US Or Against US? Craig Parsons, Nicolas Jabko, 2005 This volume provides new insights on both the recent evolution of the EU and its future developmental trajectory and maps European trends against American policies and institutions

The State of the European Union Vol. 7 Nicolas Jabko, Craig Parsons, 2005-08-04 Twenty first century Europeans are suddenly confronting new choices about their place in the world The most immediate challenges reflect tensions in the transatlantic partnership long the keystone of European worldviews In the Iraqi conflict President Bush posed a blunt general question to the world Are you with us or against us and much of Europe chose the latter More than at any time since 1945 Europeans are uncertain about the future of transatlantic cooperation Internal European developments combine with this external shift to create the impression of a continental turning point The fifty year project of the European Union is entering a new phase The Single Market program and monetary union realized the most ambitious visions of the EU's founding fathers Most thinking about further integration is exceedingly vague Simultaneous EU enlargement to the east and beyond to Turkey may create opportunities to reopen the Union's basic bargains This book proposes to help students and scholars understand the many trends of change that have brought Europe to these crossroads Its approach is novel in two ways First most similar scholarship either seeks a single grand theory of European change or implies that European politics is too complex to map change broadly This book takes a middle ground position positing several distinct mechanisms of change and tracing them across policies and institutional settings Second it uses the United States as a reference point to chart European change The aim is not comparative the focus remains on Europe but the volume maps out EU trends against American policy positions and institutional patterns thus providing a useful comparative anchor for complex patterns This is the seventh volume in the biennial series State of the European Union
