Frase, 2012-11-19 For most of the 20th Century sentencing purposes and procedures were virtually the same in all American jurisdictions The primary sentencing goal was rehabilitation to be accomplished mostly in prison To achieve this goal judges and parole boards were given broad discretionary powers In the 1970s legal scholars and critics began to question such unfettered discretion and to advocate for a system of prison as punishment not as moral reeducation Lawmakers began to experiment with mandatory penalties and other limits on sentencing discretion These changes broke the previously uniform standard of sentencing in America Today sentencing purposes and procedures vary wildly between different state and federal jurisdictions Our fragmented sentencing system has contributed to unprecedented increases in prison and jail inmate populations disproportionately affecting racial minorities and creating a staggering drain on state budgets The systems in most jurisdictions are disorganized expensive and unfair We need a new vision and a new way forward In *Just Sentencing* Richard S Frase offers a hybrid sentencing model that combines clearly stated normative principles with procedures that have proven successful in practice Frase advocates an expanded version of the theory of limiting retributivism recognizing desert based and other limits on sentence severity while accommodating crime control and other non retributive punishment purposes These principles are implemented with procedures based on the best state sentencing guidelines systems including mandatory resource and demographic impact assessments appellate review that preserves substantial trial court discretion and abolition of parole release discretion This book also shows how the core principles and procedures of the proposed model have been successfully implemented in several states and endorsed in model sentencing codes and standards America currently lacks a comprehensive understanding of the purposes and limits of punishment *Just Sentencing* offers us a cogent and urgently needed solution for the incoherent and unsustainable American sentencing system Sentencing Matters

Paying for the Past Richard S. Frase, Julian V. Roberts, 2019 All modern sentencing systems in the US and beyond consider the offender s prior record to be an important determinant of the form and severity of punishment for subsequent offences Repeat offenders receive harsher punishments than first offenders and offenders with longer criminal records are punished more severely than those with shorter records Yet the vast literature on sentencing policy law and practice has generally overlooked the issue of prior convictions even though this is the most important sentencing factor after the seriousness of the crime In *Paying for the Past* Richard S Frase and Julian V Roberts provide a critical and systematic examination of current prior record enhancements under sentencing guidelines across the US Drawing on empirical data and analyses of guidelines from a number of jurisdictions they illustrate different approaches to prior record enhancements and the differing outcomes of those approaches Roberts and Frase demonstrate that most prior record enhancements generate a range of adverse outcomes at sentencing Further the pervasive justifications for prior record enhancement such as the repeat offender s assumed higher risk of reoffending or greater culpability are uncertain and have rarely been subjected to critical appraisal The punitive sentencing premiums for repeat offenders prescribed by US guidelines cannot be justified on grounds of prevention or retribution Shining a light on a neglected but critically important topic *Paying for the Past* examines the costs of prior record enhancements for repeat offenders and offers model guidelines to help reduce racial disparities and reallocate criminal justice resources for jurisdictions who use sentence enhancements *Monthly Catalogue, United States Public Documents*, 1994 *2017 Washington State Juvenile Disposition Guidelines Manual* Washington State, 2017-11-05 The 2017 Washington State Juvenile Disposition Guidelines Manual provides comprehensive information for criminal justice practitioners public officials and citizens on juvenile offender sentencing in the state of Washington This manual offers

Back to the Asylum John Q. La Fond, Mary L. Durham, 1992 Today American mental health law and policy promote the restoring of law and order in the community rather than protecting civil liberties for the individual This compelling book recounts how and why mental health law is being reshaped to safeguard society rather than mentally ill citizens The authors both experts in the field convincingly demonstrate how rapidly changing American values ignited two very different visions of justice for the mentally ill They argue that during the Liberal era from 1960 to 1980 Americans staunchly supported civil liberties for all particularly for disadvantaged citizens like the mentally ill Also criminal law provided ample opportunities for mentally ill offenders to avoid criminal punishment for their crimes and restrictive civil commitment laws made it difficult to hospitalize the mentally disabled against their will During the Neoconservative era from 1980 on however the public demanded new laws as a result of the rise in crime and the increasing number of homeless in communities These changes make it much more difficult for mentally ill offenders to escape criminal blame and far easier to put disturbed citizens into hospitals against their will Back to the Asylum accurately describes how this abrupt shift in from protecting individual rights to protecting the community has had a major impact on the mentally ill It examines these legal changes in their broader social context and offers a provocative analysis of these law reforms Finally this timely work forecasts the future of mental health law and policy as America enters the twenty first century
