Waterland Graham Swift:

Waterland Graham Swift, 2012-09-19 Set in the bleak Fen Country of East Anglia and spanning some 240 years in the lives of its haunted narrator and his ancestors *Waterland* is a book that takes in eels and incest ale making and madness the heartless sweep of history and a family romance as tormented as any in Greek tragedy *Waterland* like the Hardy novels carries with all else a profound knowledge of a people a place and their interweaving Swift tells his tale with wonderful contemporary verve and verbal felicity A fine and original work Los Angeles Times *NOVELS FOR STUDENTS* CENGAGE LEARNING. full context of the wealth of literary devices Swift employs including irony mythical imagery and scriptural allusion The mythical images and allusions that are touched upon by other critics comprise here the central study close reading biblical hermeneutics and specific strains of French feminism will interact to allow for a reengagement of Waterland beyond the exhausted circular terms of deconstructive relativism

History and Storytelling in Graham Swift's Waterland Andrew Colcord Curtis,1992 An Analysis of Graham Swift's Waterland Kovács Zsuzsanna,1996 *Paying the Symbolic Price* Ryan Siemers,2010 *Allegories of Telling* Lynn Wells,2021-11-22 Allegories of Telling Self Referential Narrative in Contemporary British Fiction has as its founding premise Ross Chambers's notion that one of the important powers of fiction is its power to theorize the act of storytelling in and through the act of storytelling In this critical study Lynn Wells presents detailed readings of novels by five prominent British authors John Fowles Angela Carter Graham Swift A S Byatt and Salman Rushdie with an emphasis on how the texts self referential aspects illuminate the acts of reading and writing fiction in contemporary Britain and by extension around the world The book begins by situating contemporary British fiction historically as the product of an aesthetics of compromise arising from the realism versus experimentalism debate that consumed the English literary establishment during the 1960s In her discussion of the texts Lynn Wells then draws on a wide range of theoretical approaches from narrative and psychoanalytic theory to existentialist philosophy and the historiographic ideas of thinkers such as Walter Benjamin Michel Foucault and Giambattista Vico These original readings challenge superficial postmodern interpretations of contemporary British fiction as pessimistically anti historical and reassert the value of readerly engagement and narrative reconstruction of the past

Magical Realism Lois Parkinson Zamora,Wendy B. Faris,1995 On magical realism in literature The Green Studies Reader Laurence Coupe,2000 Laurence Coupe brings together a collection of extracts from a wide range of both historical and contemporary ecocritical texts

Cat's cradle Regula Staub,1992 **The Sequential Dynamics of Narrative** Ken Ireland,2001 Building on critical theories of narrative this study analyses temporal and continuity relations in fiction

Beyond Postmodernism Klaus Stierstorfer,2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

Signs of Masculinity ,2023-12-14 Masculinity is becoming an increasingly popular area of study in areas as diverse as sociology politics and cultural studies yet significant research is lacking into connections between masculinity and

literature *Signs of Masculinity* aims at beginning to fill the gap. Starting with an introduction to and intervention within numerous debates concerning the cultural construction of various masculinities the volume then continues with an investigation of representations of masculinity in literature from 1700 to the present. Close readings of texts are intended to demonstrate that masculinity is not a theoretical abstract but a definitive textual and cultural phenomenon that needs to be recognised in the study of literature. It is hoped that the wide ranging essays which raise numerous issues and are written from a variety of methodological approaches will appeal to undergraduate postgraduates and lecturers interest in the crucial but under researched area of masculinity.
