Kopel, 2017-02-16 Shedding new light on a controversial and intriguing issue this book will reshape the debate on how the Judeo Christian tradition views the morality of personal and national self defense Are self defense national warfare and revolts against tyranny holy duties or violations of God s will Pacifists insist these actions are the latter forbidden by Judeo Christian morality This book maintains that the pacifists are wrong To make his case the author analyzes the full sweep of Judeo Christian history from earliest times to the present combining history scriptural analysis and philosophy to describe the changes and continuity of Jewish and Christian doctrine about the use of lethal force He reveals the shifting patterns of thought in both religions and presents the strongest arguments on both sides of the issue The book begins with the ancient Hebrews and Genesis and covers Jewish history through the Holocaust and beyond The analysis then

shifts to the story of Christianity from its origins through the Middle Ages and the Reformation up the present day Based on this scrutiny the author concludes that contrary to popular belief the legitimacy of self defense is strongly supported by Judeo Christian scripture and commentary by philosophical analysis and by the respect for human dignity and human rights on which both Judaism and Christianity are based

"Right Makes Might" Wolfgang Mieder,2019-04-04

A powerful and timely addition to the literature of rhetoric and folklore

Choice In 1860 Abraham Lincoln employed the proverb Right makes might opposite of the more aggressive Might makes right in his famed Cooper Union address While Lincoln did not originate the proverb his use of it in this critical speech indicates that the fourteenth century phrase had taken on new ethical and democratic connotations in the nineteenth century In this collection famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States from their early beginnings up through their use by such modern day politicians as Barack Obama Hillary Rodham Clinton and Bernie Sanders Building on previous publications and unpublished research Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics women s rights and the civil rights movement and by looking at the use of proverbial phrases Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment

Public administration, democracy and peacebuilding in the Democratic Republic of the Congo Jean Chrysostome K. Kiyala ,2025-08-01

The Democratic Republic of Congo DRC presents a striking paradox vast natural and mineral wealth coexist with persistent poverty weak infrastructure and fragile institutions Kiyala s four part scholarly book explores these tensions aiming to identify practical and effective strategies to address the country s complex challenges To meaningfully confront the DRC s enduring crises Kiyala argues that public administration must engage with key drivers of insecurity and instability These include

- 1 Employing the Dodd Frank Act s Section 1502 on conflict minerals particularly the impact of the de facto embargo on the 3Ts tin tungsten and tantalum
- 2 The question of Congolese citizenship for the Banyamulenge Tutsi communities of the DRC and the need for legislative clarity
- 3 Regional and international collaboration to address ongoing threats to peace such as the remnants of the FDLR and other armed groups
- 4 The complex integration of the M23 movement and other armed factions into the national army through effective screening vetting and identification processes
- 5 The revitalisation of transitional justice reconciliation and national healing efforts

Without addressing these core issues with resolve and coherent strategies efforts toward lasting peace and sustainable development will remain elusive The book also

introduces the peacebuilding evolution systems theory PBEST a novel framework that integrates peacebuilding theory with insights from neuroscience The PBEST emphasises the progressive development of peace from individual disposition to collective global action for domestic and international security Rich in empirical analysis this scholarly work offers significant insights not only for scholars and researchers but also for practitioners and policymakers in African studies political science public administration and conflict resolution

Narration and Hero Victor Millet, Heike Sahm, 2014-07-28 By the early middle ages vernacular aristocratic traditions of heroic narration were firmly established in Western and Northern Europe Although there are regional linguistic and formal differences one can observe a number of similarities Oral literature disseminates a range of themes that are shared by narratives in most parts of the continent In all the European regions this tradition of heroic narration came into contact with Christianity which led to modifications Similar processes of adaptation and transformation can be traced everywhere in this field of early European vernacular narrative But with the increasing specialization of academic fields over the last half century inter disciplinary dialogue has become increasingly difficult The volume is a contribution to renew the inter disciplinary dialogue about common themes topics and motifs in Nordic Roman Anglo Saxon and Germanic literature and about the different methodologies to explore them
