2017 The State of Food Security and Nutrition in Europe and Central Asia. Food and Agriculture Organization of the United Nations, 2018-04-18. While countries in Europe and Central Asia have made significant progress reducing the prevalence of undernourishment, 14.3 million people still experience severe food insecurity. Malnutrition in one or more of its three main forms is present throughout the region. Demand for food is growing, consumption patterns are changing and urbanization is accelerating. The effects of climate change pose considerable challenges to agricultural production. The Sustainable Development Goals provide a framework for assessing and tackling these challenges and monitoring progress. Currently, only a few countries have policy frameworks that address all four pillars of food security: availability, access, utilization and stability. To end all forms of malnutrition by 2030, countries will need to exercise strong political will and make financial commitments to meeting the targets. To explore policy interlinkages and ensure a socially just, integrated approach, it is essential to engage all concerned groups: public and private, domestic and international.

The European Green Deal and the Eastern Partnership, Zofia Gródek-Szostak, Jadwiga Adamczyk, Karolina Kotulewicz-Wisińska, Agata Niemczyk, Karolina Wanda Olszowska, Anna Szeląg-Sikora, 2024-12-30. The Eastern Partnership (EaP) was launched in 2009 to strengthen institutional, economic and political relations between the European Union (EU) and the six Partnership countries: Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. Further, the adoption of the European Green Deal (EGD) for these countries can be seen as a turning point in policymaking as well as an indication that the Green Deal will become a guide to transforming the economy and making it more sustainable. This book presents an innovative geopolitical, multidimensional survey of EaP-EU relations and the future of Europe. It analyses the situation of the

Partnership countries in the context of sustainable development and explores the historical and strategic context of the integration of the Green Deal and its impact on the development of Europe It examines the necessary conditions for the operation of the EGD in the countries of the EaP and examines the influence of geopolitical conflicts and their impact on the implementation of the EGD in the region The book studies the political economic socio demographic dimensions of geopolitics and their effect on EGD implementation in the Partnership and finally identifies and evaluates the key challenges and features a comparative analysis of the European Green Deal and similar environmental initiatives in other parts of the world Such an approach helps place European efforts in a global context This is a valuable reference for students scholars and researchers of economics politics geography history European studies international relations and environmental policy Policymakers at the European regional and local government level will benefit from the book s policy recommendations and comprehensive insights
