Leviathan (SparkNotes Philosophy Guide) SparkNotes,2014-08-12 Leviathan SparkNotes Philosophy Guide Making the reading experience fun SparkNotes Philosophy Guides are one stop guides to the great works of philosophy masterpieces that stand at the foundations of Western thought Inside each Philosophy Guide you ll find insightful overviews of great philosophical works of the Western world *Continental Philosophy of Social Science* Yvonne Sherratt,2005-10-17 Continental Philosophy of Social Science demonstrates the unique and autonomous nature of the continental approach to social science and contrasts it with the Anglo American tradition Yvonne Sherratt argues for the importance of an historical understanding of the Continental tradition in order to appreciate its individual humanist character Examining the key traditions of hermeneutic genealogy and critical theory and the texts of major thinkers such as Gadamer Ricoeur Derrida Nietzsche Foucault the Early Frankfurt School and Habermas she also contextualizes contemporary developments within strands of thought stemming back to Ancient Greece and Rome Sherratt shows how these modes of thinking developed through medieval Christian thought into the Enlightenment and Romantic eras before becoming mainstays of twentieth century disciplines Continental Philosophy of Social Science will serve as the essential textbook for courses in philosophy or social sciences *Domestic Workers of the World Unite!* Jennifer N. Fish,2017-07-25 Look deep in your hearts making a global domestic workers movement Dignity overdue tracing a movement Getting on the map global policy as an activist stage First to work last to sleep central policy debates My mother was a kitchen girl mobilizing strategies among domestic workers Put yourself in her shoes NGO union and feminist allies A little bit of liberation moving beyond rights Power in the Political Discourse of the Polish-Lithuanian Commonwealth, 1569-1795 Anna Grzeskowiak-Krwawicz,2025-09-11 This book examines the evolving concept of power in the Polish Lithuanian Commonwealth 1569 1795 analyzing its theoretical foundations and how the key institutions of power the king and the Sejm were perceived It considers to what extent these ideas dovetailed with European debates or were distinctively Polish Lithuanian e g the close link between power and freedom The political system of the Commonwealth where the nobility participated in governance shaped both political practice and discourse This study examining how power was understood and exercised over two centuries provides a deeper look at one of Europe s most distinctive constitutional traditions **Power, Suffering, and the Struggle for Dignity** Alicia Ely Yamin,2015-12-04 Directed at a diverse audience of students legal and public health practitioners and anyone interested in understanding what human rights based approaches HRBAs to health and development mean and why they matter Power Suffering and the Struggle for Dignity provides a solid foundation for comprehending what a human rights framework implies and the potential for social transformation it entails Applying a human rights framework to health demands that we think about our own suffering and that of others as well as the fundamental causes of that suffering What is our agency as human subjects with rights and dignity and what prevents us from acting in certain circumstances What roles are played by others in

decisions that affect our health How do we determine whether what we may see as natural is actually the result of mutable human policies and practices Alicia Ely Yamin couples theory with personal examples of HRBAs at work and shows the impact they have had on people's lives and health outcomes Analyzing the successes of and challenges to using human rights frameworks for health Yamin charts what can be learned from these experiences from conceptualization to implementation setting out explicit assumptions about how we can create social transformation The ultimate concern of *Power, Suffering and the Struggle for Dignity* is to promote movement from analysis to action so that we can begin to use human rights frameworks to effect meaningful social change in global health and beyond **How to Read Economic News** Henry Silke, Fergal Quinn, Maria Rieder, 2023-08-31 Closely examining how the news media reports economic and financial matters this book equips students with solid methodological skills for reading and interpreting the news alongside a toolkit for best practice as an economic journalist How to Read Economic News combines theory and practice to explore the discourse surrounding economics in the mass media and how this specialised form of reporting can be improved Beginning by introducing major concepts such as financialised economic reporting media amnesia and loss of trust the book goes on to help students to interpret understand and analyse existing news discourse and to identify subtle biases in news reports stemming from hegemonic belief systems The final section puts this analytical knowledge into practice providing students with methods for the critical production of news and covering such skills as identifying newsworthiness story sourcing achieving clarity and using complex datasets in news stories This is a key text for students and academics in the fields of financial journalism and critical discourse analysis who wish to approach the subject with a critical eye *Rhetoric, Power, and Community* David Jasper, 2009-06-18 Rhetoric has returned vigorously to the agenda of a number of academic disciplines Aristotle defended the art of rhetoric while Plato was suspicious of its manipulative power to persuade This study examines rhetoric in the context of different kinds of religious texts from sacred scripture to liturgy to contemporary and postmodern writing and religion How does the believing community negotiate rhetorical power games which may be exercised upon it and do we have to be bold to see the ironies and the joke which may be played upon us in the name of the truth of religion This book is an exercise in rhetoric which is itself suspicious of the rhetorical arts Its concerns are profoundly theological though perhaps offensive to theology as it is often practiced in the church and the academy It offers no conclusion but perhaps a way of exploring and of looking afresh Leadership and Liberation Seán Ruth, 2012-08-21 How do leaders influence the people around them Is leadership about having particular personality traits or is it about what leaders actually do and the types of relationships they build This ground breaking book looks at how to be an effective leader It presents a model of leadership that has many practical implications for those who occupy formal leadership roles or who seek to influence events informally This model views leadership as a collaborative influence process rather than a hierarchical or authoritarian one By looking at leadership in the context of liberation it provides the reader with an alternative perspective

enabling them to think about their own aims and effectiveness as a leader It analyses our understanding of oppressed and oppressor groups and how processes of mistreatment develop and become institutionalised From this standpoint effective leadership is presented as a means of confronting inequality and initiating positive change The practical skills required by leaders to assist them in becoming agents of change and influence and in dealing with the inevitable conflicts that arise in complex interpersonal situations are considered The reasons why leaders are targets of attack are also looked into as well as the situations in which they can act as a positive force for transformation Containing an in depth review of the development of leadership theory Leadership and Liberation also critically evaluates main stream approaches and analyses the implications for leaders on the ground The lessons to be learned are applicable to leaders in all types of groups and organisations and will be of interest to those studying psychology business and management **Power Of Subconscious**
