White Logic White Methods Racism And Methodology:

White Logic, White Methods Tukufu Zuberi, Eduardo Bonilla-Silva, 2008-05-02 Examines how the racial lenses of the social sciences and the subscription of social scientists to whites racial common sense have limited their understanding of racial matters and handicapped their capacity to appreciate the significance of the race effect they call it the racial stratification effect With an assemblage of leading scholars White Logic White Methods explores the possibilities and necessary dethroning of current social research practices and demands a complete overhaul of current methods towards a multicultural and pluralist approach to what we know think and question Readers in various social sciences will find useful the chapters in the collection but all will agree that the introductory and concluding chapters to the volume Towards a Definition of White Logic and White Methods and Telling the Real Tale of the Hunt Towards a Race Conscious Sociology of Racial Stratification are likely to become classics in the field of racial and ethnic relations

White Logic, White Methods Tukufu Zuberi, Eduardo Bonilla-Silva, 2008-05-02 In this collection of essays the authors examine how racial considerations have affected the way social science is conducted how issues are framed and data is analyzed With an assemblage of leading scholars White Logic White Methods explores the possibilities and necessary dethroning of current social research practices and demands a complete overhaul of current methods towards multicultural and pluralist approach to what we know think and question

Rethinking Race and Ethnicity in Research Methods John H Stanfield II, 2016-06-03 This collection of original work demonstrates the new ways in which particular research methodologies are used valued and critiqued in the field of race and ethnic studies Contributing authors discuss the ways in which their personal and professional histories and experiences lead them to select and use particular methodologies over the course of their careers They then provide the intellectual histories strengths and weaknesses of these methods as applied to issues of race and ethnicity and discuss the ethical practical and epistemological issues that have influenced and challenged their methodological principles and applications Through these rigorous self examinations this text presents a dynamic example of how scholars engage both research methodologies and issues of social justice and ethics This volume is a successor to Stanfield s landmark Race and Ethnicity in Research Methods

The Ashgate Research Companion to Black Sociology Earl Wright II, Edward V. Wallace, 2016-03-09 The Ashgate Research Companion to Black Sociology provides the most up to date exploration and analysis of research focused on Blacks in America Beginning with an examination of the project of Black Sociology it offers studies of recent events including the Stand Your Ground killing of Trayvon Martin the impact of Hurricane Katrina on emerging adults and efforts to change voting requirements that overwhelmingly affect Blacks whilst engaging with questions of sexuality and family life incarceration health educational outcomes and racial wage disparities Inspired by W E B Du Bois s charge of engaging in objective research that has a positive impact on society and organised around the themes of Social Inequities Blacks and Education Blacks and Health and Future Directions this timely volume brings together the latest

interdisciplinary research to offer a broad overview of the issues currently faced by Blacks in United States A timely significant research guide that informs readers on the social economic and physical condition of Blacks in America and proposes directions for important future research The Ashgate Research Companion will appeal to policy makers and scholars of Africana Studies Sociology Cultural Studies Anthropology and Politics with interests in questions of race and ethnicity gender and sexuality social inequalities health and education **Burdens of Belonging** Jessica

Vasquez-Tokos,2025-04-15 Burdens of Belonging is an exploration of how systemic racism and settler colonialism shapes the lives of differently racialized people in the U S today After the "At-Risk" Label Keffrelyn D. Brown,2016 This book examines how the use of the at risk category and label creates problems for students and teachers Drawing from research across various education sites the author illustrates how educators recognize the label s potential to redress issues of equity but warns that it can also stigmatize the students so labeled Brown explores how the labeling and subsequent practices by teachers and schools actually affect students such as classifying many individuals as deficient The text provides a historical overview discusses the role of federal education policy and teaching and includes tools to help readers acquire more complex critical understandings of risk in educational practice After the At Risk Label not only challenges the education community to reorient itself to a more equitable discourse it provides a framework for changing the structural conditions of schooling to better serve all students Book Features Offers a critical appraisal of how schools policy and teachers may be complicit in exacerbating conditions that lead to risk Shows how race and class biases might be manifested in the at risk identification process Outlines a framework for making sense of and acting in response to risk that attends to both the individual and the institution Provides a set of key questions terms and a list of extended activities in each chapter In this book Keffrelyn Brown takes the common notion of at risk and turns it on its head It is imperative that people who deal with children and teens grapple with the centrality of her notions This is a must read Gloria Ladson Billings University of Wisconsin Madison In this important and timely book Keffrelyn Brown provides a much needed basis for radically rethinking whether risk can be part of a critical social justice project in education David Gillborn University of Birmingham UK This book represents an audaciously genuine call to know more about to see more in and do more for students who have somehow amassed the label at risk H Richard Milner IV University of Pittsburgh *An Introduction to Qualitative Research* Maria K. E. Lahman,2024-04-15 This engaging introduction to all aspects of qualitative research challenges students to consider how their research can be culturally responsive The first part of the book introduces the foundations including theory ethics and reflexivity with an emphasis on multiple methodologies from traditional to critical and cutting edge The second part covers practical guidance from writing proposals to data collection and includes a chapter dedicated to creating a culturally responsive relationship with research participants Finally readers engage with how the quality of research is enhanced how data are analyzed and how research accounts are created and disseminated Areas vital to the health of qualitative research are addressed including

systemic racism and cultural humility with cutting edge suggestions offered in areas like hybrid research harnessing technology and use of social media Multiple identities are centered in examples throughout including race gender and those who are hard to reach or seldom heard in research Textboxes featuring scholars student researchers and community members invite readers into dialogue in an area that is contested swiftly shifting and always vibrant with potential Resources for instructors are available on a website to accompany the book **Advancing Identity Theory, Measurement, and Research** Jan E. Stets, Ashley V. Reichelmann, K Jill Kiecolt, 2023-08-25

Bartels, Chris W.

Bonneau, 2014-09-04 One of the more enduring topics of concern for empirically oriented scholars of law and courts and political scientists more generally is how research can be more directly relevant to broader audiences outside of academia A significant part of this issue goes back to a seeming disconnect between empirical and normative scholars of law and courts that has increased in recent years Brandon L Bartels and Chris W Bonneau argue that being attuned to the normative implications of one's work enhances the quality of empirical work not to mention makes it substantially more interesting to both academics and non academic practitioners Their book's mission is to examine how the normative implications of empirical work in law and courts can be more visible and relevant to audiences beyond academia Written by scholars of political science law and sociology the chapters in the volume offer ideas on a methodology for communicating normative implications in a balanced nuanced and modest manner The contributors argue that if empirical work is strongly suggestive of certain policy or institutional changes scholars should make those implications known so that information can be diffused

The volume consists of four sections that respectively address the general enterprise of developing normative implications of empirical research law and decisionmaking judicial selection and courts in the broader political and societal context This volume represents the start of a conversation on the topic of how the normative implications of empirical research in law and courts can be made more visible This book will primarily interest scholars of law and courts as well as students of judicial politics Other subfields of political science engaging in empirical research will also find the suggestions made in the book relevant

Handbook of Critical Race Theory in Education Marvin Lynn, Adrienne D. Dixon, 2021-10-25 This handbook illustrates how education scholars employ Critical Race Theory CRT as a framework to bring attention to issues of race and racism in education It is the first authoritative reference work to provide a truly comprehensive description and analysis of the topic from the defining conceptual principles of CRT in Law that gave shape to its radical underpinnings to the political and social implications of the field today It is divided into six sections covering innovations in educational research policy and practice in both schools and in higher education and the increasing interdisciplinary nature of critical race research New chapters broaden the scope of theoretical lenses to include LatCrit AsianCrit and Critical Race Feminism as well as coverage of DisCrit Studies Research Methods and other recent updates to the field This handbook remains the definitive statement on the state of critical race theory in education and on its possibilities for the future

Mixed Methods for Psychological Measurement David F. Feldon, 2024-06-21 This book presents a groundbreaking approach to measurement from a mixed methodological perspective reframing the concept of incommensurability to harmonize qualitative and quantitative data in analyses It draws upon critical realism latent variable theory and phenomenography to illustrate how idiographic data can be incorporated into the development and validation of psychological measures The text delves into foundational methodological assumptions explores item and instrument validation techniques and addresses issues of invariance It further elucidates the application of idiographic strategies in conjunction with differential item function DIF item parameter drift IPD latent growth models and the evaluation of measurement models This innovative framework offers researchers robust tools for integrating diverse data types enhancing the validity and reliability of their findings and articulates ways in which these tools can be integrated into critical quantitative perspectives It is an invaluable resource for anyone seeking to deepen their understanding of mixed methodologies and measurement It will appeal to scholars researchers and students whose goals are to integrate different modes of data examine alternative perspectives on measurement and apply new tools to psychological and social research

Bodies out of Place Barbara Harris Combs, 2022-09-01 Bodies out of Place asserts that anti Black racism is not better than it used to be it is just performed in more nuanced ways Barbara Harris Combs argues that racism is dynamic so new theories are needed to help expose it The Bodies out of Place BOP theory she advances in the book offers such a corrective lens Interrogating several recent racialized events the Central Park birding incident the killing of Ahmaud Arbery sleeping while Black occurrences and others Combs demonstrates how the underlying belief that undergirds each

encounter is a false presumption that Black bodies in certain contexts are out of place Within these examples she illustrates how even amid professions to color blindness fixed attitudes about where Black bodies belong in what positions at what time and with whom still predominate Combs describes a long historical pattern of White pushback against Black advancement and illuminates how each of the various forms of pushback is aimed at social control and regulation of Black bodies She describes overt and covert attempts to push Black bodies back into their presumed place in U S society While the pushback takes many forms each works to paint a narrative to justify rationalize and excuse continuing violence against Black bodies Equally important Combs celebrates the resilient Black agency that has resisted this subjugation Antiracist Library and Information Science Kimberly Black,Bharat Mehra,2023-03-21 Critical scholarly and reflective perspectives on the theory practice and progress made towards achieving antiracism in the various domains of Library and Information Science and towards creating racial justice in communities through the work of information professionals **Analyzing Inequalities** Catherine E. Harnois,2017-01-30 Analyzing Inequalities An Introduction to Race Class Gender and Sexuality Using the General Social Survey is a practical resource for helping students connect sociological issues with real world data in the context of their first undergraduate sociology courses This worktext introduces readers to the GSS one of the most widely analyzed surveys in the U S examines a range of GSS questions related to social inequalities and demonstrates basic techniques for analyzing this data online No special software is required the exercises can be completed using the Survey Documentation and Analysis SDA website at the University of California Berkeley which is easy to navigate and master Students will come away with a better understanding of social science research and will be better positioned to ask and answer the sociological questions that most interest them Evaluation in Today's World Veronica G. Thomas,Patricia B. Campbell,2020-08-27 Evaluation in Today s World Respecting Diversity Improving Quality and Promoting Usability covers theoretical and practical issues related to evaluation of programs with an emphasis on viewing evaluation topics through a social justice diversity and inclusive perspective *Virtue in an Age of Identity Politics* Jonathan D. Church,2022-05-11 Virtue in an Age of Identity Politics A Stoic Approach to Social Justice proffers Stoicism as a more constructive approach to social justice activism than Critical Social Justice the current core framework for social justice activism in the 21st century Critical Social Justice examines ideologies that underlie the stratification of society in ways that confer ongoing benefits to some groups at the expense of other groups and aims for a radical reshaping of prevailing institutions because they purportedly and irredeemably underlie a set of norms beliefs and attitudes which will continue to perpetuate social inequalities if we do not undertake efforts to rethink disrupt and restructure society Stoicism the ancient Greek and Roman philosophy is chosen specifically to help navigate the contentious discourse on systemic power and privilege which dominates the Critical Social Justice paradigm In emphasizing intent over impact as well as the distinction between the circumstances of our lives and the living of our lives the Stoic approach highlights the vital importance of reason and virtue in achieving a

connection between the individualistic concern with cultivation of a good character and the collective concern with making the world a better place
