Cooley, 2012-09-13 This book advances our understanding of the place of Latin inscriptions in the Roman world It enables readers especially those new to the subject to appreciate both the potential and the limitations of inscriptions as historical source material by considering the diversity of epigraphic culture in the Roman world and how it has been transmitted to the twenty first century The first chapter offers an epigraphic sample drawn from the Bay of Naples illustrating the dynamic

epigraphic culture of that region The second explores in detail the nature of epigraphic culture in the Roman world probing the limitations of traditional ways of dividing up inscriptions into different categories and offering examples of how epigraphic culture developed in different geographical social and religious contexts It examines the life cycle of inscriptions how they were produced viewed reused and destroyed Finally the third provides guidance on deciphering inscriptions face to face and handling specialist epigraphic publications Study Guide BookCaps,2012-11-30 Brandon Sanderson s The Way of Kings has been called one of the greatest fantasies of all time but it is massive There are dozens of characters plots and settings This study guide is a companion to the first book in the series The Way of Kings It s the perfect guide to someone who wants extra help keeping up with all the twist and characters or who just wants a refresher while reading the rest of the books in the series BookCap Study Guides do not contain text from the actual book and are not meant to be purchased as alternatives to reading the book This study guide is an unofficial companion and not endorsed by the author or publisher of the book We all need refreshers every now and then Whether you are a student trying to cram for that big final or someone just trying to understand a book more BookCaps can help We are a small but growing company and are adding titles every month **Gender, Power, and Identity in The Films of Stanley Kubrick** Karen A. Slavery, Resistance, and Identity in Early Modern West Africa

Makhroufi Ousmane Traoré, 2023-11-30 Between the seventeenth and eighteenth centuries more than fifteen million people were uprooted from West Africa and enslaved in the Trans Saharan and Transatlantic slave systems The state of Gajaage located on the West African hinterland offered a doorway to the Atlantic Ocean and played a central role in the wide scale trade system that connected the histories of Africa the Americas and Europe Focussing on the Soninke of Gajaaga Makhroufi Ousmane Traor demonstrates how their resistance to the slave trades led to the formation of a united community bound by an awareness of identity This original study expands our understanding of the various modes of resistance West Africans employed to stem the encroaching tide of Arab imperializing efforts European mercantile capitalism and the Atlantic slave trade whilst also highlighting how ethnic and religious identities were constructed and mobilized in the region **Slavery Stole My Identity - and other stories** Brian Moyo, *Slavery I North America*, **Long Past Slavery** Catherine A. Stewart, 2016-02-05 From 1936 to 1939 the New Deal s Federal Writers Project collected life stories from more than 2 300 former African American slaves These narratives are now widely used as a source to understand the lived experience of those who made the transition from slavery to freedom But in this examination of the project and its legacy Catherine A Stewart shows it was the product of competing visions of the past as ex slaves memories of bondage emancipation and life as freedpeople were used to craft arguments for and against full inclusion of African Americans in society Stewart demonstrates how project administrators such as the folklorist John Lomax white and black interviewers including Zora Neale Hurston and the ex slaves themselves fought to shape understandings of black identity She reveals that some influential project employees were also members of the United Daughters of the Confederacy intent on memorializing the Old South Stewart places ex slaves at the center of debates over black citizenship to illuminate African Americans struggle to redefine their past as well as their future in the face of formidable opposition By shedding new light on a critically important episode in the history of race remembrance and the legacy of slavery in the United States Stewart compels readers to rethink a prominent archive used to construct that history *Desegregating the Past* Robyn Autry, 2017-02-07 At the Apartheid Museum in Johannesburg South Africa visitors confront the past upon arrival They must decide whether to enter the museum through a door marked whites or another marked non whites Inside along with text they encounter hanging nooses and other reminders of apartheid era atrocities In the United States museum exhibitions about racial violence and segregation are mostly confined to black history museums with national history museums sidelining such difficult material Even the Smithsonian s National Museum of African American History and Culture is dedicated not to violent histories of racial domination but to a more generalized narrative about black identity and culture The scale at which violent racial pasts have been incorporated into South African national historical narratives is lacking in the U S *Desegregating the Past* considers why this is the case tracking the production and display of historical representations of racial pasts at museums in both countries and what it reveals about underlying social anxieties unsettled emotions and aspirations surrounding contemporary social fault lines around race

Robyn Autry consults museum archives conducts interviews with staff and recounts the public and private battles fought over the creation and content of history museums Despite vast differences in the development of South African and U S society Autry finds a common set of ideological political economic and institutional dilemmas arising out of the selective reconstruction of the past Museums have played a major role in shaping public memory at times recognizing and at other times blurring the ongoing influence of historical crimes The narratives museums produce to engage with difficult violent histories expose present anxieties concerning identity mis recognition and ongoing conflict Identity Brian
