

Earth History

Age of Earth

Early Indirect Estimates

In the 18th and 19th centuries, geologists (scientists who study Earth and its history) used indirect methods to estimate Earth's age.

- Geologists examined the amount of sediment a stream deposited in a year to calculate the duration for a stream to deposit an ancient sediment layer.
- British geologist Charles Lyle estimated that the first shelled animals appeared 240 million years ago

In 1892, William Thomson (later known as Lord Kelvin) calculated Earth to be 100 million years old by assuming that it began as a molten ball and cooled off to its current temperature.

In 1896, Thomson's calculation was confirmed to be invalid when radioactivity was discovered, meaning that heat was continuously produced from radioactive elements under Earth's surface.

Modern Quantitative Analysis

Understanding radioactivity has allowed scientists to date Earth materials such as rocks

from Earth's crust and meteorites that are known to have formed at the same time as Earth. By considering the age of rocks and fossils, scientists created a timeline of geological history of 4.6 billion years.

Concept Check

- How did 18th century geologists estimate Earth's age?
- How do modern scientists evaluate Earth's age?

Study Tip

Make a timeline that shows the evolving method of how geologists estimated the age of the earth.

Evidence for an early Earth is found in rocks. By examining the radioactive elements within rocks, geologists are able to predict the age of the Earth. Diagrams such as these can be constructed from the evidence gathered.

Exploring the Secrets of Hidden Wealth Michael Scantlebury, 2025-02-01 This masterpiece has been quite controversial in some quarters the subject of finances in the Kingdom In his usual straight forward but yet biblical approach Apostle diligently explained the parables of Jesus in view of provisions delving into a strong theological framework for stewardship and how to form relevant partnership for wealth which is an effective interaction with the world system for material advance and contentment as a Kingdom virtue This book served to fuel in us an even deeper personal search into God s intention for wealth among His people It provides a unique perspective on God s heart towards us and His empowering ability through resources to bring His purpose to pass Exploring the Secrets of Hidden Wealth is a revelatory guide to understanding the power purpose and stewardship of money

Understanding the Dual Aspects of Faith Michael Scantlebury, 2023-07-31 From the onset Apostle Scantlebury presents the tenets of his tome by eloquently contrasting the two dimensions of Faith 1 where we use our Faith to acquire and believe God for new things and victories in Him and 2 where we use that same Faith to resist and battle against all odds that is thrown at us After defining the elements of faith Apostle Michael empowers us with the tools to increase our faith Our knowledge of God and the application of what we know It s not enough to know what the Word of God says What produces real faith is displayed when our actions match our belief Apostle Scantlebury gives us an accurate understanding of the benefits of our trials Contrary to our Westernized belief Faith and trials are mutually inclusive We are encouraged to keep trusting God despite the opposition Trusting God then becomes the substratum of having a pleasant relationship with Him

The Resurrection of The Dead Ones Michael Scantlebury, 2025-06-15 What happens to a person when they die It is one of the most asked and least understood questions in all of life and for the Christian it entails the idea of a resurrection Every Christian denomination and there are many believe one simple truth the tomb was empty after the crucifixion of Jesus We often hear sermons where the focus is on the cross and the resurrection is mentioned only in passing But when you really get into the meat of the Word of God the Bible clearly shows that the resurrection of Jesus was the gospel message preached by the Apostles and not the Cross Sadly the Believers only seem to get excited about the resurrection once a year at Easter time In reality every Sunday should be Resurrection Sunday The early Church met on the first day of the week to celebrate Jesus defeat of death Imagine the impact from consciously gathering every week to celebrate the resurrection And in that vein we need to seek to arrive at a clear biblical understanding of this particular question regarding what happens to a

person when they die It is my earnest prayer that we together could arrive at a much better understanding of this subject
