6 Tools for Collaborative Mathematics Coaching Nicora Placa, 2023-10-10 In *6 Tools for Collaborative Mathematics Coaching* Nicora Placa lays out a clear path to help you become a trusted and effective math coach Her 6 Tools are flexible structures that you and your colleagues can use to learn together Building Teams Fostering a Learning Community Student Interviews Learning to Listen Visiting Classrooms Developing Your Lens Learning Walks Focusing the Team on Students Thinking Rehearsing Routines Practicing with Colleagues Lesson Study Learning Collectively with Voice Choice and Agency In this easy to use practical guide Placa introduces each of the 6 Tools with classroom vignettes step by step guidelines for rollout connections to the literature resources for further research planning templates and opportunities for you to adapt the tool for your particular context Whether you re a new coach who loves teaching math to children but is new to adult education or a more experienced coach who is looking for new strategies to engage your teams *6 Tools for Collaborative Mathematics Coaching* can help you create learning opportunities that honor teachers as professionals With a collaborative coaching approach you can improve teaching and learning across your school and for all your students There s so much to love about how *6 Tools* is constructed Elham Kazemi [Survival Guide for Early Career Researchers](#) Dominika Kwasnicka, Alden Yuanhong Lai, 2022-11-08 Navigating research careers is often highly challenging for early career researchers ECRs in the social sciences The ability to thrive in research careers is complex and requires soft people and management skills and resilience that often cannot be formally taught through university coursework Written from a peer perspective this book provides guidance and establishes emotional rapport on topical issues relevant for ECRs in academia and industry The authors are ECRs who have been successful in navigating their careers and they seek to connect with readers in a supportive and collegial manner Each chapter includes elements of story telling and scientific thinking and is organized into three parts 1 a personal story that is relevant to the topic 2 key content on professional and personal effectiveness based on evidence in the psychological sociological and or management sciences and 3 action points and practical recommendations The topics covered are specifically curated for people considering undertaking research careers or already working in research including Work Hard Snore Hard Recovery from Work for Early Career Researchers Networking and Collaborating in Academia Increasing Your Scientific Impact and Having Fun in the Process Accelerating Your Research Career with Open Science Engaging with the Press and Media Make Your Science Go Viral How to Maximize the Impact of Your Research Exploring the Horizon Navigating Research Careers Outside of Academia Thinking like an Implementation Scientist and Applying Your Research in Practice *Survival Guide for Early Career Researchers* summarizes relevant evidence based research to offer advice in strategic but also supportive ways to ECRs It is an essential go to practical resource for PhD students postdoctoral fellows and junior faculty This book will also benefit senior researchers who are serving as mentors or delivering professional development programs administrators and educators in institutions of

higher learning and anyone with an interest in building a successful research career The Experience of 'Defending' the Doctoral Dissertation Michael Byram, Maria Stoicheva, 2025-03-24 This volume describes compares and analyses the experience of defending the doctoral dissertation in a final oral examination in universities and traditions in the European Higher Education Area EHEA and beyond Forming the basis for a comparative study of the different traditions 11 case study chapters include analysis of the regulatory framework semi structured interviews with candidates examiners and supervisors and ethnographic observations of the defence Cases are drawn from universities in Bulgaria Denmark England France Germany Italy Portugal Slovenia the USA and China Further chapters analyse comparatively the findings in the case studies and explore crucial themes such as the nature and purpose of the defence the composition of examining committees the role of supervisors and the idea of the defence as ritual and performance Providing unprecedented levels of detail into a process often perceived as hidden from academic debate this book will enrich the experience of both new and existing candidates as well as examiners and supervisors and will be of further interest to researchers scholars and postgraduate students working on the study of higher education international and comparative education and assessment in higher education

Postgraduate study skills in science, technology or mathematics The Open University, This 14 hour free course explained how to develop effective study skills at PHD level in science technology or mathematics *The A-Z of the PhD Trajectory* Eva O. L. Lantsoght, 2018-05-25 This textbook is a guide to success during the PhD trajectory The first part of this book takes the reader through all steps of the PhD trajectory and the second part contains a unique glossary of terms and explanation relevant for PhD candidates Written in the accessible language of the PhD Talk blogs the book contains a great deal of practical advice for carrying out research and presenting one's work It includes tips and advice from current and former PhD candidates thus representing a broad range of opinions The book includes exercises that help PhD candidates get their work kick started It covers all steps of a doctoral journey in STEM getting started in a program planning the work the literature review the research question experimental work writing presenting online tools presenting at one's first conference writing the first journal paper writing and defending the thesis and the career after the PhD Since a PhD trajectory is a deeply personal journey this book suggests methods PhD candidates can try out and teaches them how to figure out for themselves which proposed methods work for them and how to find their own way of doing things

Nonclinical Study Contracting and Monitoring William F. Salminen, Joe M. Fowler, James Greenhaw, 2012-12-31 Nonclinical Study Contracting and Monitoring A Practical Guide offers a systematic and straightforward handbook for obtaining high quality preclinical Good Laboratory Practice GLP studies This book is full of real world examples processes procedures useful templates checklists and sample reports to provide readers with a better understanding of exactly what happens during all stages of a GLP study and the critical aspects of GLP study design and conduct Designed for both the novice and experienced scientist this book covers the GLP regulations and how they impact preclinical studies the differences

between GLP non GLP and peer reviewed studies preclinical GLP study design laboratory selection contracts and business ethics how to obtain test material for the study animal sourcing and release for study preparation of a draft report and much more By illustrating the overall big picture and tying it together with the individual steps this book is an essential resource to help scientists ensure a high quality GLP study that passes both scientific and regulatory scrutiny Includes both the big picture look at complex processes such as contracting toxicology and safety studies with CROs as well as a detailed account of each individual step Contains several real world examples of problems in preclinical studies to provide you with an idea of the types of challenges that are routinely encountered and how this book can help you avoid these issues Provides monitoring checklists through the book that will help you comply with each GLP requirement and maintain compliance throughout the entire process Both entry level and experienced scientists involved in nonclinical toxicology study monitoring will benefit from the ideas examples discussions and strategies presented throughout this book **Managing Applied Social**

Research Darlene F. Russ-Eft, Catherine M. Sleezer, Gregory Sampson Gruener, Laura C. Leviton, 2017-10-30 Essential management guidance for real world applied research projects Managing Applied Social Research equips you with the skills strategies and knowledge you need to effectively manage research projects Written by a team of nationally known researchers this book covers the systematic management of applied social research studies from soup to nuts providing researchers with an easy to follow process and the tools and templates for improving the quality ethical conduct and usefulness of the final products The authors merge expertise adapted from the field of project management with their decades of experience in using established research methodologies and practices to offer readers practical examples and insights gleaned from major research houses such as Rand Urban Institute Mathematica American Institutes for Research and others Key concepts and methodologies are systematically unpacked with detailed discussion of both theoretical bases and practical applications in the field Written in plain English the case studies and vignettes illustrate typical approaches to different scenarios and the checklists templates and other tools provide guides for action Starting from basic social research strategies you ll build an understanding of applied research issues and how projects are best managed in a messy imperfect world From conceptualization and proposal through implementation analysis and reporting this book helps you lead your projects to success Learn the skills and concepts necessary to effectively manage applied research projects for the social science disciplines Anticipate and prepare for common challenges and obstacles Understand the various roles and their requisite tasks and responsibilities Learn strategies for making effective decisions about a study s scope work schedule people budget and risks during each phase of the research study Social science research is an essential well of information upon which society is run Proper management is the key to any research project s success and success becomes more critical in the field given the potential ramifications in terms of policy and its effects on real everyday people Managing Applied Social Research provides sound guidance and expert insight with an essential real world focus **Successful Doctoral**

Training in Nursing and Health Sciences Debra Jackson, Patricia M. Davidson, Kim Usher, 2021-12-10 This textbook is a practical user friendly and essential guide for doctoral students their supervisors and advisors and administrators of doctoral programs in nursing and health sciences Nurses and health scientists have a relatively young tradition of doctoral training and this means students often come to doctoral studies without a clear understanding of what is required to be successful at this level of education Supporting students to successful completion of doctoral studies involves a complex fusion of skills and yet researchers and academics receive little specialist training in this crucial area of teaching and learning Strong pedagogies around doctoral supervision and writing are essential because in addition to the scientific research and educative skills required it is important to be able to establish and maintain enabling professional relationships within which both parties can thrive and that can withstand the years of critique needed for doctoral work The authors offer supervisors advisors students and administrators practical advice on helping students thrive and steering them through various challenges that can arise during doctoral candidature With a focus on nursing and health sciences the authors take a global approach recognising the international focus of doctoral training in nursing and health sciences The authors of this book are experienced supervisors and advisors to doctoral students and together have well over 100 successful doctoral completions and more than 1000 publications They draw on a series of interviews and case studies to share their knowledge and experience and provide insights and guidance to inspire and support student progression and ensure students get the most out of their doctoral studies
