Zimbabwe Malta and Mozambique This selection allows pairing up the countries under review as former colonizing colonized ones for instance Portugal Mozambique United Kingdom Malta allowing for an in depth comparison between the countries involved Before reaching the research core three introductory chapters outline three general issues The book starts with addressing the different approaches and epistemological underpinnings history and social psychology as academic disciplines hold In a second chapter evolutions within international academic colonial historiography are analyzed with a special focus on the recent development of New Imperial History A third chapter analyses history textbooks as cultural tools and political means of transmitting historical knowledge and representations across generations The next ten chapters form the core of the book in which evolving representations of colonial history from mid 19th century until decolonization in the 1960s and 1970s are examined explained and reflected upon for the above mentioned countries This is done through a history textbook analysis in a diachronic perspective For some countries the analysis dates back to textbooks published after the Second World War for other countries the focus will be more limited in time The research presented is done by historians and history educators as well as by social psychologists In a concluding chapter an overall overview is presented in which similarities and differences throughout the case studies are identified interpreted and reflected upon

United States Army in WWII - the Pacific - Strategy and Command: the First Two Years Professor Louis Morton, 2014-08-15 With 13 tables 16 charts 17 maps 8 diagrams its weapons are not bombs and guns but the mountains of memoranda messages studies and plans that poured forth from the deliberative bodies entrusted with the conduct of the war its sound is not the clash of arms but the cool voice of reason or the heated words of debate thousands of miles from the scene of conflict It deals with policy and grand strategy on the highest level war aims the choice of allies and theaters of operations the distribution of forces and supplies and the organization created to use them On only a slightly lower level it deals with more strictly military matters with the choice of strategies with planning and the selection of objectives with the timing of operations the movement of forces and finally their employment in battle Strategy in its larger sense is more than the handmaiden of war it is an inherent element of statecraft akin to policy and encompasses preparations for war as well as the war itself Thus this volume treats the prewar period in some detail not in any sense as introductory to the main theme but as an integral and important part of the story of Pacific strategy The great lessons of war it has been observed are to be found in the events preceding the outbreak of hostilities It is then that the great decisions are made and the nature of the war largely determined
