

Study Plan Sample

STATEMENT OF PURPOSE

My name is Benito E. Valdez and I belong to Houston, TX. This statement intends an applying for Master of Electronic, Electrical Engineering & Information Technology with a specialization in Electrical Engineering at Tianjin University, China through Chinese Govt. Scholarship.

Academic background

My academic background is very linear. I completed my School of Science & Engineering in 2011. Faisalabad securing 92.63% marks. Consequent to my excellent performance, I was able to get admission in Bachelor of Science (Electrical Engineering) at University of Engineering & Technology, Lahore, one of the modern and top-ranked engineering universities in my country. I successfully completed my degree in November 2017 with CGPA of 3.4/4.

Motivation for Further Studies

I feel it appropriate to mention here that in spite of having an Electrical Engineering degree from University of Engineering & Technology, why I have planned and decided to take up Master of Electrical Engineering. With the passage of time I have realised that promotional prospects are diminished without a Master's degree. The salaries would increase rather slower; the learning environment is little missing then. The people having a Master's Degree are more likely to get a better job, with better salaries. Bigger firms tend to be more receptive to internationally qualified candidates as they believe that they are proved to be better workers as they can show diverse skills at job. Thus, doing Masters from China means attractive commodity for the multi-nationals, better work-stations upon returning to Pakistan. I believe unless one's personality is well groomed during studies, success chances are limited.

In Short, the evaluation of future growth, the dynamics of my personality, international learning environment, Master's degree from a renowned institute, the consultation I sought from the professionals here, the financial support of my parents and passion to grow made me to take this planned and approved decision.

Why China for Higher Studies

I made a research regarding the foreign universities with the aim of selecting the most suitable destination for the study. I short listed four English speaking countries, which included the UK, Australia, Canada and USA. However, after careful research and consultation with my seniors and teachers, I decided to choose China. Chinese Universities impart quality education at a lower cost as compared to the world. In fact, China is a pioneer in the field of education. The education in Australia is generally recognised for conducive environment for imparting quality education. The faculty of the institutions is highly qualified and has extensive experience of research. I will have the opportunity to learn from expert and qualified teachers who will provide a thorough understanding of my selected field. I will be able to nurtu
